Principal's Message

Welcome to Cochin University College of Engineering Kuttanad (CUCEK), the only rural campus of Cochin University of Science and Technology. Rooted in a strong tradition of academic excellence, innovation, and social commitment, CUCEK offers a vibrant environment where students...

Cochin University College of Engineering Kuttanad (CUCEK) was established in 1999 as a constituent college of Cochin University of Science and Technology (CUSAT). Located in the serene and picturesque region of Kuttanad, Pulincunnoo, the college has been a beacon of technical education in Kerala.

About CUCEK

Excellence in Engineering Education Since 1999

Our Legacy

Looking back to the eventful history of the Cochin University College of Engineering Kuttanad (CUCEK), Pulincunnu would invoke a mixed feeling in the mind of CUCEK lovers. The only one of its kind in the locality around, it has the capacity to grow beyond a mere Engineering College or a University Department. Offering four engineering under-graduate courses, it has been initiated under the aegis of the CUSAT on 21st October 1999 as a University department outside its main campus, in the picturesque piece of land in Pulincunnu, Alappuzha district. Being formally inaugurated on 25th of October 1999 in the presence of Syndicate members including Dr. K C Joseph, the then MLA of Kuttanad and the visionary behind it and Sri. James K. J., the Special Officer of CUCEK, the College began its academic activities in rented buildings which belonged to the St. Mary's ITC, Pulincunnu and the St. Joseph's HSS, Pulincunnu. There were 192 students in four B.Tech branches, Computer Science and Engineering, Electronics and Communication Engineering, Information Technology and Mechanical Engineering in the first batch (1999-2003). The faculty members were deputed from the Centre for Undergraduate Studies in Engineering (now, the School of Engineering), CUSAT and recruited on contract basis. The experience and guidance from many of the senior faculty members benefitted the student and junior faculty community of the College.

The College flourished into an institution offering six undergraduate (B.Tech) programs in Engineering (Civil, Computer Science, Electrical and Electronics, Electronics and Communication, Information Technology and Mechanical Engineering) and a post graduate program, Master of Computer Applications (MCA), within four years of its inception. An educational institution of this kind offering many technical and professional courses and admitting students from all parts of the country and initiated in a place remote from the main transportation system and townships had to face many hardships, in the recent past. But, if it is viewed from a global perspective, it could be noticed that the best educational institutions were groomed up in rural areas which are away from distractions and pollution which are part of urbanization. Kuttanad has been a place which is surrounded by many water bodies, like lakes and rivers and with limited land transportation network. It could not offer much to education including schooling, in the past. But, given the agriculture-based living of people, pollution-less atmosphere, availability of abundance of land, encouragement and enthusiasm of the people around, possibility of research elements, like soil, water, environment, structures, appropriate technologies, etc. a catalytic development of the institution is very much promising. The institute is standing tall in the middle of the historical rice bowl of Kerala in spite of minor elements of pulling down.

The University procured nearly 40 acres of land in Pulincunnu and constructed semi-permanent buildings for the conduct of classes and administration by 2000-2001. The College was shifted to own place by the academic year 2002-2003. Initiatives to construct a

permanent building became fruitful when the first five storied building of Kuttanad having 4000 square metre habitable space was opened as the main building of CUCEK by the then Chief minister of Kerala, Sri. V S Achuthanandan, on 9th January 2010. A series of laboratory buildings, a library building and limited sporting facilities are housed by a mini-campus of CUCEK in nearly 3.5 acres apart from the main campus of academic and administrative infrastructure facilities.

Sri. James K J was the Special Officer and in charge of the Principal, CUCEK for the initial five formative years of the College. Dr. M I Thampan, Dr. Preetha Mathew K., Sri. Oomman Samuel, Dr. Job P A, Dr. Josephkutty Jacob, Dr. Mathew Cherian and Prof. (Dr.) P. S. Sreejith, Dr. Sunilkumar N., Dr. Asaletha R. were the formal Principals of the College. All the permanent faculty members of the College have either secured their doctorate degree in their respective disciplines or pursuing for the same and have experience of more than 20 years. The model set and guidance imparted by them lead the young faculty members and the students in the right path. The students have achieved many milestones, including academic ranks in the University, selection in competitive examinations, like the GATE and other UPSC examinations, Civil Service examinations, sporting goals, etc., under the constant inspiration and motivation of the faculty, in the past. Apart from the eight academic divisions (Civil Engineering, Computer Science and Engineering, Electrical and Electronics Engineering, Electronics and Communication Engineering, Information Technology, Mechanical Engineering, Applied Science & Humanities and Computer Applications) there are two units of National Service Scheme, Placement and Guidance cell, Arts Club, etc., working to the benefit of the community in and around the campus. The college also offers Ph.D. programmes in all engineering branches under faculty of engineering, CUSAT. The College can play a vital role in the upliftment of the society around in terms of education, living standards, solving social and environmental issues, etc. If driven in the right path, the institution has the capacity to excel not only in regular academics and research, but as a role model for community education to the country as a whole.

Our Journey

Key Milestones & Important Activities

Year of Establishment

CUCEK was established as a department of CUSAT, marking the beginning of quality engineering education in Kuttanad region.

New Programmes

The College flourished into an institution offering six undergraduate (B.Tech) programs in Engineering and a post graduate program, Master of Computer Applications (MCA).

Main building Inauguration

Five storied main building having 4000 square metre habitable space was opened by the then Chief minister of Kerala, Sri. V S Achuthanandan.

Research Centre

CUCEK became a Research Centre of CUSAT under the faculty of Engineering offering Ph.D. programmes under all engineering streams and interdisciplinary areas.

Digital Campus Initiative

Implemented comprehensive digital infrastructure including smart classrooms, online learning platforms, and campus-wide WiFi.

NAAC Accreditation

CUSAT awarded A+ grade by NAAC, marking a significant milestone in academic excellence and institutional quality.

Graduation Ceremony

The first graduation ceremony of the graduating students held at Seminar Complex, CUSAT, marking a significant milestone in the college's history.

Silver Jubilee Celebration

Celebrated 25 years of excellence in engineering education, innovation, and societal contribution.

NIRF Ranking

CUSAT jumps to 6th in NIRF rankings, 2025 among state public university rankings.

Programmes Offered

Explore Our Academic Programmes

Undergraduate Programmes (UG)

Eligibility Criteria

Pass in Higher Secondary Examination conducted by Board of Higher Secondary Examinations, Government of Kerala OR Senior School Certificate Examination conducted by Central Board of Secondary Education OR Indian School Certificate Examination, (Class XII) conducted by Council for the Indian School Certificate Examinations, New Delhi OR any other examination accepted as equivalent thereto with Mathematics, Physics and Chemistry as optional subjects securing a separate minimum of 50% marks in Mathematics and 50% marks in Mathematics, Physics and Chemistry put together.

Candidates belonging to Kerala Scheduled Caste (KSC) and Kerala Scheduled Tribes (KST) are eligible for applying if they have minimum pass marks in the qualifying examination. SEBC candidates of Kerala State belonging to non-creamy layer category are eligible for 5% relaxation in minimum required marks for the qualifying examination.

B.Tech Lateral Entry

Minimum qualification required for B.LET. – B.Tech. Lateral Entry Programmes:

- Any three-year Diploma in Engineering / Technology awarded by a Board of Technical Education recognised by the Department of Technical Education, Government of Kerala, with not less than 60% marks.

B.Tech Programmes

Course Name	Approved Intake	Duration	Lateral Entry
Computer Science & Engineering	120	4 Years	Available
Information Technology	60	4 Years	Available
Electronics & Communication Engineering	60	4 Years	Available
Electrical & Electronics Engineering	60	4 Years	Available
Civil Engineering	60	4 Years	Available

How to Get Admission

Online Registration

Register online through the CUSAT admissions portal (admissions.cusat.ac.in) for the Common Admission Test (CAT).

Appear for CUSAT CAT

Appear for the Common Admission Test conducted by CUSAT and obtain a valid rank.

Option Entry

Enter your course and college preferences online after the result declaration and rank list publication.

Counselling & Allotment

Participate in the online counselling process. Seats will be allotted based on CAT rank and options opted.

Document Verification & Admission

Complete document verification and pay the prescribed fee at the college to secure your admission.

Postgraduate Programmes (PG)

MCA: Candidates should have passed Bachelor's degree in any discipline with Mathematics as one of the subjects at 10+2 level or at graduation level with minimum 50% marks (45% for SC/ST candidates).

PG Programmes

Course Name	Approved Intake	Duration
Master of Computer Applications (MCA)	60	2 Years

Register for the MCA entrance test conducted by CUSAT through the official admissions website.

Appear for MCA CAT/Entrance

Appear for the MCA entrance examination and obtain a valid rank in the rank list.

Attend the CUSAT MCA counselling process and receive seat allotment based on your rank.

Admission Formalities

Complete document verification, pay the fees, and complete admission formalities at the college.

Doctoral Programmes (PhD)

Candidates should have passed M.Tech/M.E./M.Sc. degree in the relevant branch with minimum 55% marks (50% for SC/ST candidates) or equivalent CGPA. Candidates with a valid GATE/NET/SLET score will be given preference.

Research areas include Computer Science, Electronics, Electrical Engineering, Mechanical Engineering, Civil Engineering, and interdisciplinary areas.

PhD Programmes

Research Area	Duration
Computer Science & Engineering	3-5 Years
Electronics & Communication Engineering	3-5 Years
Electrical & Electronics Engineering	3-5 Years
Mechanical Engineering	3-5 Years
Civil Engineering	3-5 Years

Check Notification

Check the CUSAT website for PhD admission notification and important dates.

Submit Application

Submit online application with research proposal, statement of purpose, and all required documents.

Entrance Test & Interview

Appear for the entrance test (if applicable) and attend the interview with the departmental research committee.

Selection & Registration

Upon selection, complete the registration process and begin your research work under the guidance of an assigned supervisor.

Alumni Network

Thousands of CUCEK graduates shaping the world — united by one institution, one spirit.

Alumni Worldwide

Years of Excellence

Engineering Departments

Industry Partnerships

Message from the Chairman

Prof. Dr. Harikrishnan D

Chairman, Alumni Association · CUCEK

"Our alumni are the true embodiment of CUCEK's spirit — engineers and innovators who carry the institution's values wherever they go. This network is built on the bonds forged in classrooms, labs, and late-night study sessions, and it grows stronger every year."

About the CUCEK Alumni Association

The CUCEK Alumni Association (CAA) is a vibrant community connecting thousands of graduates who have passed through the halls of Cochin University College of Engineering Kuttanad.

From its founding in 1999, CUCEK has produced outstanding engineers, entrepreneurs, and leaders. Our association nurtures these bonds and creates pathways for alumni to give back to the institution and the next generation.

Quick Facts

Become Part of the Legacy

Register as Alumni

Join our growing database and stay connected with your batchmates and the institution.

Contribute & Mentor

Share your knowledge and experience with current students. Help shape the next generation.

<https://cucek.cusat.ac.in/programme-outcomes.php>

Programme Outcomes (PO)

Defining the knowledge, skills, and attitudes that students are expected to have by the time of graduation.

Programme Outcomes (PO) — B.Tech

Engineering Knowledge

Apply knowledge of mathematics, science, engineering fundamentals and specialization to solve complex engineering problems.

Problem Analysis

Identify, formulate, review research literature, and analyze complex engineering problems.

Design / Development of Solutions

Design solutions for complex engineering problems and design system components/processes considering public health, safety, and environment.

Investigation of Complex Problems

Conduct investigations using research methods, experiments, analysis, and interpretation of data.

Modern Tool Usage

Select and apply appropriate modern engineering and IT tools.

The Engineer and Society

Apply reasoning to assess societal, health, safety, legal, and cultural issues.

Environment and Sustainability

Understand the impact of engineering solutions in environmental and societal contexts.

Ethics

Apply ethical principles and commit to professional ethics and responsibilities.

Individual and Team Work

Function effectively as an individual and as a member/leader in teams.

Communication

Communicate effectively with engineering community and society.

Project Management and Finance

Apply engineering and management principles to manage projects.

Life-long Learning

Recognize the need for lifelong learning in technological change.

Programme Outcomes (PO) — MCA

Computational Knowledge

Apply computing fundamentals, mathematics, and domain knowledge.

Identify, analyze, and define computing problems using appropriate methods.

Design and develop software solutions meeting specified needs.

Conduct Investigations of Complex Computing Problems

Use research-based knowledge and experiments to analyze computing problems.

Use modern computing tools, frameworks, and technologies.

Professional Ethics

Understand professional, ethical, legal, and security responsibilities.

Recognize need for continuous learning in computing technologies.

Project Management

Apply project management principles in software development.

Communication & Teamwork

Communicate effectively and work collaboratively in teams.

Societal & Environmental Responsibility

Understand societal impact of computing solutions.

Innovation & Entrepreneurship

Apply innovation, entrepreneurship, and problem-solving skills.

Software Engineering Practices

Apply software engineering principles for quality software systems.

Right to Information (RTI)

Promoting transparency and accountability in the working of every public authority.

The Right to Information Act, 2005

The Right to Information Act (RTI) is an Act of the Parliament of India which sets out the rules and procedures regarding citizens' right to information. It replaced the former Freedom of Information Act, 2002. Under the provisions of RTI Act, any citizen of India may request information from a "public authority" which is required to reply expeditiously or within thirty days.

CUCEK, being a constituent college of Cochin University of Science and Technology (CUSAT), strictly adheres to the RTI Act to ensure transparency in its administrative and academic functions.

Public Information Officer (PIO)

The Assistant Registrar

Cochin University College of Engineering Kuttanad

Pulincunnoo, Alappuzha - 688504

Appellate Authority

The Principal

How to Request Information

Prepare Application

Write your request in English, Hindi, or Malayalam clearly specifying the information requested.

Payment of Fee

Attach the required application fee (typically ₹10) as per government norms.

Civil Engineering

Department of CE

About the Department

The Division of Civil Engineering at Cochin University College of Engineering Kuttanad (CUCEK), Cochin University of Science and Technology (CUSAT) was established in the academic year 1999–2000, along with the inception of CUCEK. Initially functioning as the Division of Civil Engineering and General Science, it emerged as an independent Division of Civil Engineering from the academic year 2005–2006, reflecting its steady academic and institutional growth. The Division has been offering the B.Tech programme in Civil Engineering since 2003–2004, producing technically competent graduates equipped to meet professional and societal challenges. Expanding its academic and research footprint, the Division introduced the PhD programme in Civil Engineering in 2013 under the Faculty of Engineering, CUSAT, fostering advanced research aligned with regional and national priorities. Since 2017, the Division has developed and strengthened a comprehensive suite of laboratories that support hands-on learning, research, and consultancy. These include the Survey Laboratory, Concrete Laboratory, Strength of Materials Laboratory, Geotechnical Engineering Laboratory, Transportation Engineering Laboratory, Environmental Engineering Laboratory, Non-Destructive Testing Laboratory, and a fully equipped Civil Engineering Workshop. Together, these facilities provide a strong foundation for experiential learning and innovative problem-solving. A defining strength of the Division lies in its dedicated faculty, motivated students, and a sustained culture of academic rigor and sincerity, which have guided its progress over the years. Teaching, research, and student projects are deeply rooted in the unique environmental, geotechnical, and socio-economic context of Kuttanad, with a strong emphasis on sustainability and community impact. Student and faculty-led initiatives focus on improving the quality of human habitat through sustainable construction practices, soil stabilization methods, earthquake-resistant designs, wastewater and solid waste management strategies, and context-sensitive infrastructure solutions. The Division actively collaborates with several government and private sector technical agencies in addressing real-world challenges related to sustainable development. Notable collaborators include KITCO, the Agri-Engineering Department (Government of Kerala), District Administration Alappuzha, CANALPY, IIT Bombay, Kerala Institute of Local Administration (KILA), TAGS Forum, Alappuzha Municipality, among others. Through these partnerships, the Division has successfully completed—and continues to undertake—impact-driven projects such as polder wall strengthening using indigenous and modern techniques, development of appropriate housing technologies for Kuttanad, agri-engineering infrastructure works, water purification using cost-effective and appropriate technologies, and the Vembanad Lake Rejuvenation Project. In addition to technical excellence, the Division places strong emphasis on value education and holistic development. Since 2020, the course on Universal Human Values has been offered as part

of the B.Tech induction programme and as a credited course in the IV semester. This initiative enables the Division to nurture value education, value-based learning, and value-based living on campus, fostering ethical awareness, social responsibility, and personal growth among students. The programme has significantly benefited students by enhancing their perspective on professional ethics, sustainability, and harmonious living. Beyond academics and research, the Division extends consultancy and technical services to the general public and government departments, reinforcing its commitment to societal welfare and sustainable regional development. The Division also ensures career preparedness and employment opportunities for its graduates through consistent academic mentoring and regular campus placements. Rooted in tradition yet driven by innovation, the Division of Civil Engineering at CUCEK continues to play a pivotal role in nurturing competent engineers and socially responsible professionals, committed to building resilient, sustainable, and inclusive infrastructure for the future.

Vision

To impart values and produce knowledge and skills in various areas of Civil Engineering with a global perspective and to groom professionals with ethical values and excellence to meet the current and future challenges in nation building.

Mission

- To inculcate quality education, research and consultancy to stake holders to be ready for up-to-date industrial and societal needs.

- To
sustainab

Program Specific Outcomes (PSOs)

- Translate ideas into reality by preparing accurate working drawings and cost-effective estimates for buildings and infrastructure that meet client and societal requirements.

- Des
structura
of safety.

Head of Department

Prof. Dr. Sunilkumar N

Professor

sunilkumarn@cusat.ac.in

Hail from a rural village, namely Narakathara in Kuttanad, a Globally Important Agricultural Heritage System (GIAHS), proclaimed by the United Nations in 2013 and studied in rural

schools. After finishing B.Tech Degree in Civil Engineering with Honours from the University of Calicut in 1994, turned to teaching (January 1995). Subsequently, secured M.Tech in Structural Engineering from Kerala University (College of Engineering, Thiruvananthapuram) in 1996 and continued teaching on adhoc/guest basis until secured a corporate job at HUDCO (Housing and Urban Development Corporation), India at New Delhi in February 1999. Shifted over to teaching and research again through joining CUSAT (Cochin University of Science and Technology, Kochi, Kerala, India) since 14th July 1999. Selected as one of the faculty members of the rural campus of CUSAT, the Cochin University College of Engineering Kuttanad (CUCEK) at its inception (25th October 1999) and continues there till date. Continued education through research which lead to the award of PhD in Computational Mechanics from the Indian Institute of Science, Bangalore in 2011 (with gold medal for the best PhD in the Department of Civil Engineering, IISc, Bangalore in 2011-12). Published more than 20 articles in international and national journals and conferences and owns an Indian patent. Undertakes consultancy projects and structural vetting assignments in addition to involvement in socially relevant and sustainable projects and activities. Started involving in the activities and projects of the National Committee for Induction Program, AICTE since June 2020. Conducted more than 120 invited talks in seminars, conferences, Faculty Development Programs, Student Development Programs, etc. Guides Research Scholars leading to PhD production since 2014. Had been the Principal of CUCEK from 2017 to 2020, member of Academic Council, Board of Studies in Civil Engineering, Faculty of Engineering, etc. Very active in students' counselling.

Courses Offered

BTech Civil Engineering

PhD in Civil Engineering

Laboratories & Facilities

Department Activities

Technical Events

The Division of Civil Engineering, CUCEK fosters a vibrant academic culture that extends well beyond the classroom, encouraging technical curiosity, professional engagement, and socially relevant research.

Force

The students' association, FORCE (Federation of Remarkable Civil Engineers), CUCEK, was established on 21 January 2012 and has since been a driving force behind the Division's technical and professional activities. FORCE organizes regular technical programmes, workshops, exhibitions, and competitions, actively involving students from Civil Engineering as well as other branches. A hallmark initiative of FORCE is the annual technical talk held on 21st January, featuring eminent academicians, industry experts, senior technocrats, and accomplished alumni. Distinguished speakers have included Dr. J. Latha, former Vice Chancellor of CUSAT, Dr. George Mathew, former Principal, School of Engineering, CUSAT, along with renowned bureaucrats and professionals from academia and industry. These interactions offer students valuable insights into emerging technologies, professional ethics,

and career pathways.

Research Projects with Societal Relevance

Research at the Division of Civil Engineering is strongly rooted in real-world societal challenges, particularly those unique to Kuttanad and similar vulnerable regions. Faculty members and research scholars actively engage in projects addressing critical issues such as polder wall failures, building settlement, flooding, and climate-induced infrastructure risks. Key research themes include soil stabilization, appropriate and sustainable construction techniques, integration of indigenous knowledge with modern engineering practices, flood mitigation and adaptation strategies, and resilient infrastructure development. These research efforts aim to deliver practical, scalable solutions with direct social and environmental impact.

Industry and Institutional Collaboration

The Division maintains strong collaborative ties with leading academic institutions, government agencies, and industry partners, enhancing both research quality and practical exposure. Major collaborators include IIT Bombay, Kerala Institute of Local Administration (KILA), Agri Engineering Department (Government of Kerala), various Municipalities, KITCO, TAGS Forum, and several other government departments. In addition, the Division actively participates in technical discussions and knowledge exchanges with students and researchers from Amrita University, other engineering colleges and universities across India, and international institutions, including Munich University and other foreign universities. These interactions promote cross-institutional learning, research synergy, and global perspectives among students and researchers. Through dynamic student engagement, impactful research, and meaningful collaborations, the Division of Civil Engineering, CUCEK continues to nurture technically competent, socially conscious, and globally aware civil engineers.

Computer Applications

Department of MCA

About the Department

The Division of Computer Applications, established in 2000 at Cochin University College of Engineering Kuttanad (CUCEK) under CUSAT, is committed to delivering quality education in the rapidly growing field of Information Technology. The Department has consistently maintained high academic standards through a well-structured curriculum that blends strong theoretical foundations with extensive practical training. With a team of qualified and dedicated faculty members, the Department focuses on building fundamental knowledge, problem-solving skills, and professional values among students. Equal importance is given to academic excellence, research orientation, career preparation, and participation in co-curricular and extracurricular activities. Through its disciplined environment and commitment to innovation and quality, the Department has established itself as a center of excellence for the MCA program.

Vision

To become a Centre of excellence in Computer Applications and impart innovation-oriented education for building globally competent and socially committed professionals.

Mission

- To develop technically competent professionals and equip them for research, innovations, higher studies, and entrepreneurship.

- To emphasize

Computer Science & Engineering

Department of CSE

About the Department

The Division of Computer Science at CUCEK is a vibrant and forward-looking department dedicated to innovation and excellence in the field of computing. Established in 1999, the Division offers an undergraduate program in Computer Science and Engineering with an annual intake of 90 students. The B.Tech program features a dynamic and comprehensive curriculum with a strong emphasis on software design and development. Students gain a solid foundation in programming languages, computer architecture, and the design and application of algorithms. The program is supported by a team of nine highly qualified faculty members with expertise in diverse areas such as Artificial Intelligence, Computer Networks, Software Engineering, Computer Graphics, and Human-Computer Interaction. The Department is committed to delivering high-quality education by integrating advanced knowledge in Computer Science with modern teaching methodologies. Faculty members bring enthusiasm, research insight, and innovation into the classroom, enriching the overall learning experience. The Department is equipped with fully functional and well-maintained laboratories featuring high-performance computing facilities. To strengthen practical knowledge and research skills, students undertake one minor project and a multidisciplinary major project during the eight semesters of the B.Tech program. The laboratories include the Project Lab, Graphics Lab, Hardware Lab, Programming Lab, and System Software Lab, providing comprehensive hands-on training across core domains of Computer Science.

Vision

To be a global centre for learning and dissemination in computing and automation.

Mission

- To mould students as competent and industry leading technologists with social commitment guided by professional ethics and national ethos.

Electrical & Electronics Engineering

Department of EEE

About the Department

The Electrical and Electronics Engineering Division of Cochin University College of Engineering, Kuttanadu was established in 1999 under Cochin University of Science and Technology (CUSAT). The Division offers a B.Tech degree program in Electrical and Electronics Engineering, with a strong focus on academic excellence and practical competence. The Division is supported by a dedicated team of faculty members comprising experienced professionals from industry and academia, along with a group of young and dynamic educators. Together, they have contributed significantly to the development of robust infrastructure and effective academic processes for the successful conduct of the undergraduate program. The faculty profile includes doctorates, active researchers, and postgraduates specializing in various domains of electrical and electronics engineering, ensuring comprehensive coverage of curriculum requirements. Faculty members are actively encouraged to enhance their qualifications through higher studies, research activities, and professional development programs. The Division is housed in spacious academic blocks with well-established laboratory facilities required for the B.Tech program. These include the Electrical Machines Laboratory, Power Electronics Laboratory, Measurement and Circuits Laboratory, Simulation Laboratory, Advanced Electrical Engineering Laboratory, and an Electrical Workshop, all of which are sufficiently furnished with modern equipment and advanced software tools. In addition, the Division has ample infrastructure including well-equipped classrooms, a seminar hall, and staff rooms. To support academic and research activities, the Division maintains a dedicated Division Library, accessible to students in addition to the central library. The library is well stocked with essential textbooks, reference materials, national and international journals, and technical manuscripts related to electrical engineering.

Vision

To impart quality education with professionalism to budding technocrats by moulding technically competent young minds with social commitment and moral quality.

Mission

- To be a Centre of excellence in Electrical and Electronics Engineering for the upliftment of mankind by imparting quality education.

- To provide quality education in the field of electrical and electronics engineering and energy conversion.

Program Specific Outcomes (PSOs)

- Specify, design and analyse efficient power generation, transmission and distribution systems.

Information Technology

Department of IT

About the Department

Technological advancements have transformed every aspect of human life, with Information Technology playing a central and indispensable role. The widespread influence of IT has led to a growing demand for specialized education in this field, reflected in the increasing number of students choosing Information Technology as their area of study. The Division of Information Technology was established in 1999 and offers a B.Tech degree program in Information Technology with an annual intake of 60 students, approved by the All India Council for Technical Education (AICTE). The program is designed to equip graduates with the knowledge and skills required to assume professional roles immediately after graduation, while also preparing them for leadership positions, higher studies, and research. The curriculum covers key areas such as programming, networking, web systems, information management, and human-computer interaction. It emphasizes both theoretical understanding and practical application, enabling students to develop technical expertise and industry readiness. The Department is supported by a dynamic team of faculty members who bring together academic excellence and industry experience. Beyond teaching, they serve as dedicated mentors, guiding students in their academic, professional, and personal development.

Vision

To transform into a knowledge hub in information technology by creating and exchanging information through leading edge research and innovation, thereby creating IT professionals, researchers, and entrepreneurs with instilled altruistic values.

Mission

- To guarantee high-quality technical education, research training, professionalism, and strong ethical values.

- Promote research

Program Specific Outcomes (PSOs)

- Apply Computational Thinking Skills to analyse the real world problems in different domains and develop appropriate IT solutions.

- Monitor and evaluate the system efficiently

Head of Department

Dr. Jayaprabha P

Associate Professor

jayaprabhacusat@gmail.com

Dr. Jayaprabha P is an Associate Professor in the Department of Information Technology at Cochin University College of Engineering Kuttanad (CUCEK), under CUSAT. She holds a B.Tech in Electronics & Telecommunication Engineering, an M.Tech in Electronics, and a Ph.D. from Cochin University of Science and Technology. With over 28 years of teaching experience and more than 15 years at CUCEK, her academic interests include web mining and data mining. She has published research in reputed international journals and presented her work at various conferences.

Regular workshops, seminars, and technical symposiums to enhance student knowledge and skills.

IGNITZ

Our Association, the first of its kind in CUCEK, has consistently set benchmarks in student-led academic and technical initiatives. It proudly organized the first All Kerala Technical Fest at Changanacherry Town Hall, marking a significant milestone in the institution's history. Under the banner IGNITZ, the Association conducts a wide range of informative and skill-enhancing programs, including seminars, value-added courses, workshops, quizzes, and other academic events that enrich student learning. It has always been at the forefront of addressing emerging challenges in the field through research activities, expert lectures, peer learning, and faculty mentorship. In addition, the Association actively organizes technical and intellectual events such as paper presentations, debugging contests, debates, design competitions, and exhibitions, fostering innovation, leadership, and collaborative growth among students.

Prof. Dr. Preetha Mathew K

Principal

Academic Profile

- B.Tech in Computer Science and Engineering

- M.Tech

About & Research

With more than 30 years of experience in teaching, my research interests include Cryptography and Network Security. I am dedicated to fostering an environment of academic excellence and innovation at CUCEK.

Principal's Message

Welcome to Cochin University College of Engineering Kuttanad (CUCEK), the only rural campus of Cochin University of Science and Technology. Rooted in a strong tradition of academic excellence, innovation, and social commitment, CUCEK offers a vibrant environment where students receive individual attention and holistic development. Our dedicated faculty actively engage in research across diverse engineering domains, enriching classroom learning with contemporary knowledge and practical insight. Over the years, we have nurtured engineers and leaders who combine professional competence with values of integrity, humility, and service. Our strong alumni network plays a vital role in mentoring students, strengthening industry linkages, and enhancing placement opportunities. CUCEK is also moving steadily towards interdisciplinary growth and innovation. New initiatives such as the National Facility for Sustainable Aquatic Production Systems (NaF-SAPS), the CUCEK Industry Interaction Cell, and the Innovation and Start-up Promotion Cell reflect our commitment to research-driven development and entrepreneurship. The envisioned Indo-US collaborative project under NaF-SAPS further strengthens our research ecosystem, with plans for advanced laboratories, aquaculture production units, and specialized academic programs including electives at the B.Tech level, M.Tech in Aquaculture Engineering, and a Diploma in Aquaculture Production Management. I warmly invite you to join the CUCEK family and be part of a future shaped by knowledge, innovation, and service to society.

Unit No. 2 & 3

The NSS units at CUCEK are vibrant hubs of volunteerism. We aim to instill a sense of social welfare in students and to provide service to society without bias. Volunteers work with villages and rural areas to improve the living conditions of the community.

Key Activities

7-Day Special Camps

Comprehensive residential camps in adopted villages.

Blood Donation

Regular camps in association with Alappuzha Medical College.

Green Campus

Organic farming, tree sapling distribution, and plastic cleanup.

Digital Literacy

Empowering the elderly and school kids with basic IT skills.

Programme Officers

Join NSS today and be part of the change.

NSS Event Gallery

Glimpses of our vibrant activities and community service

33. <https://cucek.cusat.ac.in/photography-club.php>

<https://cucek.cusat.ac.in/photography-club.php>

Photography Club

Capturing the soul of CUCEK through the lens.

Focusing on Creativity

The CUCEK Photography Club is a vibrant community of visual storytellers. Whether you're a professional with a DSLR or a hobbyist with a smartphone, our club provides a platform to explore the art of photography, learn new techniques, and showcase your unique perspective of campus life.

Workshops

Regular sessions on lighting, composition, and post-processing led by experts and seniors.

Photo Walks

Exploring the scenic backwaters of Kuttanadu to capture the rustic beauty of our surroundings.

Competitions

Monthly themed contests and annual exhibitions to challenge and reward creative talent.

Explore Our Official Portal

Visit our dedicated website for the latest photo galleries, member portfolios, technical blogs, and detailed event calendars.

Join the Community

Ready to capture moments? Scan our Instagram for updates or contact our coordinators to join the official club community.

34. <https://cucek.cusat.ac.in/conduct.php>

<https://cucek.cusat.ac.in/conduct.php>

Code of Conduct

Upholding the values of discipline, integrity, and professional ethics at CUCEK.

Cochin University of Science and Technology

Student Code of Conduct

The Students' Conduct and Disciplinary Code (2005) ensures a safe, respectful, and academically focused campus environment. The Code applies to all students admitted to the University and its recognized institutions and is binding from the date of admission.

- Promote academic excellence and integrity
- Maintain a safe and secure campus environment
- Abide by University rules and regulations
- Respect the rights and dignity of others
- Physical, emotional, or psychological harm
- Damage to University property
- Heads of Departments / Principals / Wardens handle initial disciplinary matters
- The Rector / Vice-Chancellor handles appeals

Official Rules & Statutory Orders

For further information, please refer to the complete Students' Conduct and Disciplinary Code handbook.

35. <https://cucek.cusat.ac.in/hostels.php>

<https://cucek.cusat.ac.in/hostels.php>

Student Hostels

Providing a secure and comfortable environment for our students.

Accommodation Assistance

Since CUCEK doesn't have its own hostels, the college assists students in finding safe and secure accommodation. We maintain a list of College Approved Hostels that meet our safety and service standards. Additionally, a College Maintained Dedicated Hostel facility is available for which formal admission is required.

College Maintained Dedicated Hostel(Ladies)

This facility provides a high-standard living environment with controlled access, dedicated wardens, and priority for first-year students coming from distant locations.

- 24/7 Professional Security

- High-

College Approved Hostels

36. <https://cucek.cusat.ac.in/arts.php>

<https://cucek.cusat.ac.in/arts.php>

Arts & Culture

Witness the symphony of talent, creativity, and cultural heritage at CUCEK.

Creative Essence

At CUCEK, creativity is celebrated as a vital part of student life. We provide a platform for every student to explore their artistic potential and express their unique perspectives through various cultural avenues.

"Art enables us to find ourselves and lose ourselves at the same time." - Thomas Merton

Cultural Clubs

Music Club

Harmonizing talent from classical to contemporary rock.

Film Club

Screening world cinema and fostering student filmmakers.

Literary Club

Debates, poetry slams, and the annual college magazine.

Fine Arts Club

Bringing color to our campus through murals and workshops.

Major Festivals

Sattva

The soul of CUCEK's creative expression. Sattva is our vibrant annual college arts festival where departments battle for glory across various artistic disciplines, from classical music to modern dance.

Sargam

The prestigious CUSAT University Arts Festival. Our students consistently showcase their brilliance at Sargam, competing with the best across all CUSAT campuses and bringing back numerous accolades.

Sattva: Moments of Brilliance

Staff Convener

Mr. Thomas T

Associate Professor

Department of Mechanical Engineering

37. <https://cucek.cusat.ac.in/sports.php>

<https://cucek.cusat.ac.in/sports.php>

Sports & Athletics

Fostering sportsmanship, physical fitness, and excellence in athletic competitions.

Champion Spirit

At CUCEK, we believe in the holistic development of our students. Our sports facilities and annual meets encourage students to excel beyond the classroom, building resilience, teamwork, and leadership.

Annual Sports Meet

A highly anticipated multi-day event where departments compete for the prestigious "Overall Championship" in athletics and games.

Outdoor Games

Football, Cricket, Volleyball, and Basketball courts.

Indoor Games

Badminton, Table Tennis, Chess, and Carrom.

Fitness Center

Well-equipped gymnasium with trainers for students.

Track & Field

400m track for sprints, long jump, and high jump.

Championship Moments

Staff Convener

Mr. Thomas T

Associate Professor

Department of Mechanical Engineering

Parent Teacher Association

Strengthening the bond between home and college for the holistic development of our students.

About Our PTA

The Parent Teacher Association (PTA) at CUCEK is a vibrant and active body that serves as the backbone of the college's developmental activities. It brings together parents, guardians and faculty members on a common platform to ensure a nurturing and enriching environment for every student.

PTA Committee Meeting

PTA Leadership

The core officers steering the association

Dr. Preetha Mathew K

Principal, CUCEK

Sri. Babu S

Parent Representative

Ms. Minimole A

Associate Professor

Executive Committee Members

Representatives from parents and faculty steering key initiatives

PTA Activities & Highlights

PTA Membership & Fund

All parents, guardians, and teachers of the college are ordinary members of the PTA. A non-refundable membership fee is collected at the time of admission to the PTA fund, which is utilised for the welfare of students and college development.

Research Areas & Publications

Exploring the frontiers of Engineering and Science and showcasing our scholarly contributions.

Core Research Domains

Embedded Systems & IoT

Intelligent sensors and low-power hardware for industrial automation.

AI & Machine Learning

Deep learning and vision systems for healthcare and security.

Renewable Energy

Optimization of microgrids and solar energy harvesting.

Wireless Networks

Research focused on the design, optimization, and security of communication systems that transmit data over wireless channels without physical connections.

Cryptography

Research focused on developing techniques for secure communication through encryption, authentication, and data protection

Signal Processing

Analysis of signals in frequency domain, Digital Filter design etc.

Interdisciplinary

Programmes Offered

Explore Our Academic Programmes

Undergraduate Programmes (UG)

Eligibility Criteria

Pass in Higher Secondary Examination conducted by Board of Higher Secondary Examinations, Government of Kerala OR Senior School Certificate Examination conducted by Central Board of Secondary Education OR Indian School Certificate Examination, (Class XII) conducted by Council for the Indian School Certificate Examinations, New Delhi OR any other examination accepted as equivalent thereto with Mathematics, Physics and Chemistry as optional subjects securing a separate minimum of 50% marks in Mathematics and 50% marks in Mathematics, Physics and Chemistry put together.

Candidates belonging to Kerala Scheduled Caste (KSC) and Kerala Scheduled Tribes (KST) are eligible for applying if they have minimum pass marks in the qualifying examination. SEBC candidates of Kerala State belonging to non-creamy layer category are eligible for 5% relaxation in minimum required marks for the qualifying examination.

B.Tech Lateral Entry

Minimum qualification required for B.LET. – B.Tech. Lateral Entry Programmes:

- Any three-year Diploma in Engineering / Technology awarded by a Board of Technical Education recognised by the Department of Technical Education, Government of Kerala, with not less than 60% marks.

B.Tech Programmes

Course Name	Approved Intake	Duration	Lateral Entry
Computer Science & Engineering	120	4 Years	Available
Information Technology	60	4 Years	Available
Electronics & Communication Engineering	60	4 Years	Available
Electrical & Electronics Engineering	60	4 Years	Available
Civil Engineering	60	4 Years	Available

How to Get Admission

Online Registration

Register online through the CUSAT admissions portal (admissions.cusat.ac.in) for the Common Admission Test (CAT).

Appear for CUSAT CAT

Appear for the Common Admission Test conducted by CUSAT and obtain a valid rank.

Option Entry

Enter your course and college preferences online after the result declaration and rank list publication.

Counselling & Allotment

Participate in the online counselling process. Seats will be allotted based on CAT rank and options opted.

Document Verification & Admission

Complete document verification and pay the prescribed fee at the college to secure your admission.

Postgraduate Programmes (PG)

MCA: Candidates should have passed Bachelor's degree in any discipline with Mathematics as one of the subjects at 10+2 level or at graduation level with minimum 50% marks (45% for SC/ST candidates).

PG Programmes

Course Name	Approved Intake	Duration
Master of Computer Applications (MCA)	60	2 Years

Register for the MCA entrance test conducted by CUSAT through the official admissions website.

Appear for MCA CAT/Entrance

Appear for the MCA entrance examination and obtain a valid rank in the rank list.

Attend the CUSAT MCA counselling process and receive seat allotment based on your rank.

Admission Formalities

Complete document verification, pay the fees, and complete admission formalities at the college.

Doctoral Programmes (PhD)

Candidates should have passed M.Tech/M.E./M.Sc. degree in the relevant branch with minimum 55% marks (50% for SC/ST candidates) or equivalent CGPA. Candidates with a valid GATE/NET/SLET score will be given preference.

Research areas include Computer Science, Electronics, Electrical Engineering, Mechanical Engineering, Civil Engineering, and interdisciplinary areas.

PhD Programmes

Research Area	Duration
Computer Science & Engineering	3-5 Years
Electronics & Communication Engineering	3-5 Years

Electrical & Electronics Engineering	3-5 Years
Mechanical Engineering	3-5 Years
Civil Engineering	3-5 Years

Check Notification

Check the CUSAT website for PhD admission notification and important dates.

Submit Application

Submit online application with research proposal, statement of purpose, and all required documents.

Entrance Test & Interview

Appear for the entrance test (if applicable) and attend the interview with the departmental research committee.

Selection & Registration

Upon selection, complete the registration process and begin your research work under the guidance of an assigned supervisor.

Undergraduate Programmes (UG)

Eligibility Criteria

Pass in Higher Secondary Examination conducted by Board of Higher Secondary Examinations, Government of Kerala OR Senior School Certificate Examination conducted by Central Board of Secondary Education OR Indian School Certificate Examination, (Class XII) conducted by Council for the Indian School Certificate Examinations, New Delhi OR any other examination accepted as equivalent thereto with Mathematics, Physics and Chemistry as optional subjects securing a separate minimum of 50% marks in Mathematics and 50% marks in Mathematics, Physics and Chemistry put together.

Candidates belonging to Kerala Scheduled Caste (KSC) and Kerala Scheduled Tribes (KST) are eligible for applying if they have minimum pass marks in the qualifying examination. SEBC candidates of Kerala State belonging to non-creamy layer category are eligible for 5% relaxation in minimum required marks for the qualifying examination.

B.Tech Lateral Entry

Minimum qualification required for B.LET. – B.Tech. Lateral Entry Programmes:

- Any three-year Diploma in Engineering / Technology awarded by a Board of Technical Education recognised by the Department of Technical Education, Government of Kerala, with not less than 60% marks.

B.Tech Programmes

Course Name	Approved Intake	Duration	Lateral Entry
Computer Science & Engineering	120	4 Years	Available
Information Technology	60	4 Years	Available
Electronics & Communication Engineering	60	4 Years	Available
Electrical & Electronics Engineering	60	4 Years	Available
Civil Engineering	60	4 Years	Available

How to Get Admission

Online Registration

Register online through the CUSAT admissions portal (admissions.cusat.ac.in) for the Common Admission Test (CAT).

Appear for CUSAT CAT

Appear for the Common Admission Test conducted by CUSAT and obtain a valid rank.

Option Entry

Enter your course and college preferences online after the result declaration and rank list publication.

Counselling & Allotment

Participate in the online counselling process. Seats will be allotted based on CAT rank and options opted.

Document Verification & Admission

Complete document verification and pay the prescribed fee at the college to secure your admission.

Postgraduate Programmes (PG)

MCA: Candidates should have passed Bachelor's degree in any discipline with Mathematics as one of the subjects at 10+2 level or at graduation level with minimum 50% marks (45% for SC/ST candidates).

PG Programmes

Course Name	Approved Intake	Duration
Master of Computer Applications (MCA)	60	2 Years

Register for the MCA entrance test conducted by CUSAT through the official admissions website.

Appear for MCA CAT/Entrance

Appear for the MCA entrance examination and obtain a valid rank in the rank list.

Attend the CUSAT MCA counselling process and receive seat allotment based on your rank.

Admission Formalities

Complete document verification, pay the fees, and complete admission formalities at the college.

Doctoral Programmes (PhD)

Candidates should have passed M.Tech/M.E./M.Sc. degree in the relevant branch with minimum 55% marks (50% for SC/ST candidates) or equivalent CGPA. Candidates with a valid GATE/NET/SLET score will be given preference.

Research areas include Computer Science, Electronics, Electrical Engineering, Mechanical Engineering, Civil Engineering, and interdisciplinary areas.

PhD Programmes

Research Area	Duration
Computer Science & Engineering	3-5 Years
Electronics & Communication Engineering	3-5 Years

Electrical & Electronics Engineering	3-5 Years
Mechanical Engineering	3-5 Years
Civil Engineering	3-5 Years

Check Notification

Check the CUSAT website for PhD admission notification and important dates.

Submit Application

Submit online application with research proposal, statement of purpose, and all required documents.

Entrance Test & Interview

Appear for the entrance test (if applicable) and attend the interview with the departmental research committee.

Selection & Registration

Upon selection, complete the registration process and begin your research work under the guidance of an assigned supervisor.

Research Interests

Biography

Hail from a rural village, namely Narakathara in Kuttanad, a Globally Important Agricultural Heritage System (GIAHS), proclaimed by the United Nations in 2013 and studied in rural schools. After finishing B.Tech Degree in Civil Engineering with Honours from the University of Calicut in 1994, turned to teaching (January 1995). Subsequently, secured M.Tech in Structural Engineering from Kerala University (College of Engineering, Thiruvananthapuram) in 1996 and continued teaching on adhoc/guest basis until secured a corporate job at HUDCO (Housing and Urban Development Corporation), India at New Delhi in February 1999. Shifted over to teaching and research again through joining CUSAT (Cochin University of Science and Technology, Kochi, Kerala, India) since 14th July 1999. Selected as one of the faculty members of the rural campus of CUSAT, the Cochin University College of Engineering Kuttanad (CUCEK) at its inception (25th October 1999) and continues there till date. Continued education through research which lead to the award of PhD in Computational Mechanics from the Indian Institute of Science, Bangalore in 2011 (with gold medal for the best PhD in the Department of Civil Engineering, IISc, Bangalore in 2011-12). Published more than 20 articles in international and national journals and conferences and owns an Indian patent. Undertakes consultancy projects and structural vetting assignments in addition to involvement in socially relevant and sustainable projects and activities. Started involving in the activities and projects of the National Committee for Induction Program, AICTE since June 2020. Conducted more than 120 invited talks in seminars, conferences, Faculty Development Programs, Student Development Programs, etc. Guides Research Scholars leading to PhD production since 2014. Had been the Principal of CUCEK from 2017 to 2020, member of Academic Council, Board of Studies in Civil Engineering, Faculty of Engineering, etc. Very active in students' counselling.

Achievements & Awards

- 1. N S Govinda Rao award for the best PhD thesis in the Department of Civil Engineering, Indian Institute of Science, Bangalore in 2011-2012.

- 2. F
Universal
conducted

Academic Background

Course / Degree	Institution	Year
B.Tech Civil Engineering	NSS College of Engineering, Palakkad	October 1994
M.Tech Structural Engineering	College of Engineering, Thiruvananthapuram	December 1996
PhD Computational Mechanics	Indian Institute of Science, Bangalore	December 2010

Patents & Intellectual Property

Status	Patent / Application No.	Title of Patent	Inventors
granted	421972	Portable Agriculture Network System	Santhoshkumar M B, Kannan B, Sunilkumar N.

Research Guidance

Scholar Name	Title of Research	Joining Date	Type
Vidya Vijayan	A Novel Deep Learning Approach for Structural Health Monitoring	01 Nov 2024	Full-time
Minimole A	An effective Mesh-Free Analysis of Crack Propagation through Concrete	01 Nov 2023	Part-time
Anju Mary Ealias	A Polymer-based Protection System for Polder Walls of Kuttanad	01 Nov 2020	Part-time
Jisha Balakrishnan	Possibilities of Reuse of Construction Demolition Waste for Rammed Earth Construction	01 Nov 2022	Part-time
Haseena Beegum	Transport of Pollutants and their Remedies in the Waterbodies and Sediments in Kuttanad	01 Nov 2022	Part-time
Fr. Kunjumon Job	Appropriate Foundation Practices for Kuttanad	01 Nov 2024	Part-time
V Anjali	Determination of Seismic Damping Resistance of Kuttanad Soil	01 Nov 2024	Part-time
Neethu Lukose	Hydrological and Surface Implications through Spatiotemporal Evaluation of Land Use and Land Cover Transformations for Flood Adaptation in the Low-Lying Delta, Kuttanad, India	01 Nov 2020	Full-time

Scholar Name	Title of Research	Awarded Date
Harikrishnan D	An Effective Framework for Addressing Security Issues in Biometric Fingerprint Authentication System	08 Sep 2021

Teaching Experience

Professor

Cochin University of Science and Technology, Kochi, Kerala (Regular)

Associate Professor

Lecturer, Senior Lecturer, Assistant Professor

Project Associate

Indian Institute of Technology, Madras (Ad-hoc)

Guest Lecturer

Rajiv Gandhi Institute of Technology (Govt. Engineering College), Kottayam (Guest)

Government Polytechnic, West Hill, Kozhikkode (Guest)

Trade Instructor

Dr. Zakir Hussain Industrial Training Centre, Changanassery (Regular)

Research Experience

Research Scholar

Indian Institute of Science, Bangalore (QIP - Full-time)

Industry Experience

Trainee Officer

Housing and Urban Development Corporation, NCR, New Delhi (Regular)

Extension Activities

Expert talks, invited talks, and other professional engagements.

Resource Person to conduct a session of 3 hours on Universal Human Values

11 Sep 2024

As part of the students induction program at the College of Engineering, Thiruvananthapuram on 11th September 2024.

Resource Person of the FDP, Universal Human Values - Introductory

09 Aug 2024 - 11 Aug 2024

Rajeev Gandhi Memorial College of Engineering and Technology, Nandyala, Andhra Pradesh from 9th to 11th August 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

18 Jul 2024 - 20 Jul 2024

VNR Vignana Jyothi Institute of Engineering and Technology, Hyderabad, Telengana from 18th to 20th July 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

Resource Person to deliver content in the topic, "The Importance of Value-Guidance in Research - Purpose, Program and Potential"

10 Jul 2024

On 10th July 2024 as part of a faculty development program on Research Ethics and Methodological Retreat at Carmel Engineering College, Punnapra, Alappuzha from 10th to 12th July 2024

Resource Person of the FDP, Universal Human Values - II

26 Jun 2024 - 03 Jul 2024

TKM College of Engineering, Kollam, Kerala from 26th June to 3rd July 2024 (AICTE funded), conducted by the National Coordination Committee for Induction Program, AICTE, New

Delhi.

20 Jun 2024 - 22 Jun 2024

IES College of Engineering and Technology, Chittilappally, Thrissur, Kerala from 20th to 22nd June 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

11 Jun 2024 - 15 Jun 2024

PSNA College of Engineering and Technology, Dindigul, Tamil Nadu from 11th to 15th June 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

21 May 2024 - 25 May 2024

Royal College of Engineering and Technology, Akkikkavu, Thrissur, Kerala from 21st to 25th May 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi

15 May 2024 - 17 May 2024

The Institute of Public Enterprise, Hyderabad, Telengana from 15th to 17th May 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

12 May 2024 - 14 May 2024

Sri Venkateswara College of Engineering, Bangalore, Karnataka from 12th to 14th May 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

28 Mar 2024 - 30 Mar 2024

Acharya Institute of Technology, Bangalore, Karnataka from 28th to 30th March 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

29 Feb 2024 - 02 Mar 2024

Cochin University of Science and Technology, Kochi, Ernakulam, Kerala from 29th February to 2nd March 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

08 Feb 2024 - 10 Feb 2024

Adi Shankara Institute of Engineering and Technology, Kalady, Ernakulam, Kerala from 8th to 10th February 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

23 Jan 2024 - 27 Jan 2024

Sri Sairam Engineering College, Chennai, Tamil Nadu from 23rd to 27th January 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi

20 Jan 2024 - 22 Jan 2024

SRM Institute of Science and Technology, Kattankulathur, Tamil Nadu from 20th to 22nd January 2024, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi

28 Dec 2023 - 30 Dec 2023

PDA College of Engineering, Kalaburgi, Karnataka from 28th to 30th December 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

30 Nov 2023 - 02 Dec 2023

RNS Institute of Technology, Bangalore from 30th November to 2nd December 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

Expert Talk on National Education Policy 2020

25 Nov 2023

Resource Person for a session on NEP 2020 for faculty members of Vignan Institute of Science and Technology, Elanji, Ernakulam, Kerala on 25th November 2023.

Resource Person for a session on UHV-I to the first- and second-year students

22 Nov 2023

Holy Grace Academy of Pharmacy, Mala, Thrissur and chief guest of the inaugural function of SIP on 22nd November 2023.

Resource Person for a session on “Wellness as an impact of harmony in the self with the body”

10 Oct 2023

Resource Person for a session on “Wellness as an impact of harmony in the self with the body” on 10th October 2023 at the Department of Civil Engineering, College of Engineering, Thiruvananthapuram in the Short-Term Training Program on “Advanced Seismic Analysis and Design of Structures”.

05 Oct 2023 - 07 Oct 2023

KMEA Engineering College, Edathala, Ernakulam from 5th to 7th October 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

14 Sep 2023 - 16 Sep 2023

R V Institute of Management, Bangalore, Karnataka from 14th to 16th September 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

Resource Person for the FDP on Universal Human Values - Introductory

01 Sep 2023 - 03 Sep 2023

Jai Shriram Engineering College, Tiruppur, Tamil Nadu from 1st to 3rd September 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

National Lead Volunteer in the translation project of repositories of Universal Human Values

01 Aug 2023

Lead Volunteer in the translation project of the Glossary, Teachers' Manual and Book of Universal Human Values to Malayalam. National Coordinator of all the nine teams for translation of UHV materials to nine Indian languages.

20 Jul 2023 - 22 Jul 2023

TKM College of Engineering, Kollam, Kerala from 20th to 22nd July 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

10 Jul 2023 - 12 Jul 2023

Sri Sai Ram Engineering College, Chennai from 10th to 12th July 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

06 Jul 2023 - 08 Jul 2023

Vel Tech Institute of Science and Technology, Chennai from 6th to 8th July 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

23 Jun 2023 - 25 Jun 2023

Nehru College of Engineering and Research Centre, Pampady, Thrissur, Kerala from 23rd to 25th June 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

19 Jun 2023 - 21 Jun 2023

Godavari Institute of Engineering and Technology, Rajamundry, Andhra Pradesh from 19th to 21st June 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

01 Jun 2023 - 03 Jun 2023

PSNA College of Engineering, Dindigul, Tamil Nadu from 1st to 3rd June 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

23 Apr 2023 - 25 Apr 2023

At Kuttukaran Polytechnic College, Paravur, Ernakulam, Kerala from 23rd to 25th April 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

17 Mar 2023 - 19 Mar 2023

At SRM Institute of Science and Technology, Kattankulathur, Chennai from 17th March to 19th March 2023, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

12. Resource Person in a couple of workshops conducted by KILA

01 Mar 2023 - 01 Apr 2023

A couple of workshops conducted by KILA for the training of rural people, farmers, Panchayath policy makers, etc. at Nedumudy and Alappuzha in March and April 2023.

Resource Person for training faculty members of College of Engineering, Cherthala

02 Feb 2023

Delivered a couple of sessions on Universal Human Values (Basic Human Aspirations and their Fulfilment).

Resource Person for invited lecture on Universal Human Values and inauguration of UHV Students' Cell at KGISL Institute of Technology, Coimbatore

07 Jan 2023

Observer of the FDP, Universal Human Values - II

29 Aug 2022 - 02 Sep 2022

FDP is conducted at Mar Baselios College of Engineering and Technology, Thiruvananthapuram, Kerala from 29th August to 2nd September 2022, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

Resource Person to facilitate conduct of Students' Induction Programs at various institutions

01 Aug 2022

To facilitate conduct of Students' Induction Programs at various institutions, like, TKM College of Engineering (2022, 2023), Govt. Polytechnic College, Kaduthuruthi (2022), Mount Zion College of Engineering, Kadammanitta (2022), School of Engineering (2022, 2023), College of Engineering, Thiruvananthapuram (2023), etc. in 2022-23 and 2023-24.

Co-facilitator of the FDP, Universal Human Values - II

01 Aug 2022 - 05 Aug 2022

FDP is conducted at College of Engineering, Guindy, Anna University Campus, Chennai from 1st to 5th August 2022, conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi.

Various online FDPs of Universal Human Values - Introductory and UHV-II from 11th May 2022, till date being conducted by the National Coordination Committee for Induction Program, AICTE, New Delhi for faculty members of AICTE institutions in the country.

11 May 2022

Facilitator of various follow-up meetings of Universal Human Values

01 Apr 2022

01. Facilitator of the weekly follow-up meetings of Universal Human Values to faculty members at the national level on Saturdays and Sundays, conducted by the NCCIP-AICTE-UGE including preparing the materials. 02. Facilitator for the eSIP follow-up meetings for students on Wednesdays from 7.30 PM to 8.30 PM on Universal Human Values - I. All the videos are available in the SIP UHV YouTube Channel maintained by the NCCIP-AICTE-UGC. 03. Facilitator for the weekly follow-up meetings of the Kerala Chapter of UHV on Mondays (7.00 PM to 8.30 PM) to help develop the members in self-exploration and as Resource Persons. 04. Facilitator for the weekly follow-up meetings of CUSAT UHV Cell on all Tuesdays (6.00 PM to 7.00 PM) to help develop the members in self-exploration and as Resource Persons. 05. Moderator of the morning sessions of UHV (Exercises for observing the self by the self and observing the self and body by the self) on all days from 5.30 AM to 6.30 AM, conducted by the NCCIP.

Consultancy, Projects, Lab Tests, Structural Vetting and Stability Check, etc.

01 Jul 2015

Various LSGD offices, Kerala PWD, KWA, KSCCL, KPHCC, private contractors, schools, etc. - Various tests of materials and soil in the strength of materials, geotechnical engineering, transportation engineering, concrete and environmental engineering labs under the Division of Civil Engineering, structural stability of school buildings, etc. from Jan 2024 to Jul 2025.

Biography

A distinguished academician and technical consultant with over 16 years of professional experience spanning engineering education, industrial project management, and energy consultancy. He specializes in Power Electronics and Drives, bringing a robust blend of theoretical knowledge and practical industry insights to his work. His teaching career covers 14 years across several of Kerala's most prestigious institutions under the jurisdictions of: APJ Abdul Kalam Technological University (KTU) University of Calicut (UC) Mahatma Gandhi University (MGU) Cochin University of Science and Technology (CUSAT) In addition to his academic tenure, he served for two years as a Project Officer (Technical) at the Entrepreneurship Development Institute of India (EDII) in Ahmedabad, where he honed his skills in industrial project management. A strong advocate for innovation, Sankaran has held pivotal leadership roles in the Kerala startup ecosystem, including: 1. Nodal Officer: Innovation & Entrepreneurship Development Centre (IEDC) under the Kerala Startup Mission. 2. Innovation Coordinator: Kerala Blockchain Academy Innovation Club. He is also a recognized expert in energy management, holding a Category A Home Energy Assessor certification from the Energy Management Centre (EMC) and a Supervisory Class B License from the Kerala State Electricity Licensing Board (KSELB).

Academic Background

Biography

Currently an Associate Professor in Electronics and Communication Engineering in College of Engineering Kuttanad (CUCEK). Joined CUCEK on 5th February 2003 and has about 28 Years of overall experience in teaching. Actively involved in teaching and research for the past several years. Research interest includes Image Processing, Medical Image Processing, Computer Aided Diagnosis, Image Analysis, Microwaves & Antennas etc. Took B.E in Electronics & Communication Engineering from Mangalore University in 1992 and MBA with specialization in HRM from IGNOU in 2000. Obtained M.Tech degree in Electronics (Microwave & Radar) from Dept. of Electronics, CUSAT in 2010 and Ph.D. from CUSAT under the Faculty of Engineering on the topic "Automated Detection and Classification of Leukaemia by Image Processing and Deep Learning Techniques". Currently guiding 8 PhD scholars under the faculty of engineering, CUSAT.

Biography

Dr. Jayaprabha P is an Associate Professor in the Department of Information Technology at Cochin University College of Engineering Kuttanad (CUCEK), under CUSAT. She holds a B.Tech in Electronics & Telecommunication Engineering, an M.Tech in Electronics, and a Ph.D. from Cochin University of Science and Technology. With over 28 years of teaching experience and more than 15 years at CUCEK, her academic interests include web mining and data mining. She has published research in reputed international journals and presented her work at various conferences.

Academic Background

Course / Degree	Institution	Year
SSLC	Bethany Balikamadam Girls High School	Mar 1985
Second Group 4th option Maths	T.K. Madhava Memorial College	Mar 1987
B.Tech. Electronics & Telecommunication Engineering	T. K. M. College of Engineering	Mar 1992
M.Tech Electronics	Cochin University	Jun 1997
Ph. D Faculty of Technology	Cochin University	Mar 2023

Journal Publications

- [1] Jayaprabha P., Paulose Jacob K., "Critical Review of Different Approaches of Multiparty Privacy Protection Methods and Effectiveness on Social Media," Transactions on Emerging Telecommunications Technologies , vol. 36, no. 4, pp. e70130, Mar. 2025. IF: 2.4

Research Areas & Publications

Exploring the frontiers of Engineering and Science and showcasing our scholarly contributions.

Core Research Domains

Embedded Systems & IoT

Intelligent sensors and low-power hardware for industrial automation.

AI & Machine Learning

Deep learning and vision systems for healthcare and security.

Renewable Energy

Optimization of microgrids and solar energy harvesting.

Wireless Networks

Research focused on the design, optimization, and security of communication systems that transmit data over wireless channels without physical connections.

Cryptography

Research focused on developing techniques for secure communication through encryption, authentication, and data protection

Signal Processing

Analysis of signals in frequency domain, Digital Filter design etc.

Interdisciplinary

Research focused on developing techniques for secure communication through encryption, authentication, and data protection

Signal Processing

Analysis of signals in frequency domain, Digital Filter design etc.

Interdisciplinary

Featured Publications

Research Works

Type	Publication Details	Faculty	Year
------	---------------------	---------	------

Conference	Standalone Solar Photovoltaic System with Modified Variable Step Size Perturb & Observe Maximum Power Point Tracking Suitable for Partial Shading Conditions Sarika E.P, Dr. Josephkutty Jacob, Dr Sheik Mohammed S, Shiny Paul IEEE International Conference on Electrical EnergySystems (ICEES - 2021),	Prof. Dr. Shiny Paul	2021
------------	---	----------------------	------

Conference	Security Considerations in the Internet of Things Protocol Stack, Kishor krishnan Nair,Hari krishnan D International Conference on Artificial Intelligence, Big Data, Computing and Data Communication Systems (icABCD), Durban, KwaZulu Natal, South Africa,	Prof. Dr. Harikrishnan D	2021
------------	---	--------------------------	------

Journal	Cardiac Arteries Disease Finding Using IVUS Images, Nishant,Abin,Harikrishnan Psychology and Education,	Prof. Dr. Harikrishnan D	2021
---------	---	--------------------------	------

Journal	Performance Comparison of Stand Alone Solar PV System with Variable Step Size MPPT Shiny Paul, K. Poullose Jacob, Josephkutty Jacob International Journal of Renewable Energy Research	Prof. Dr. Shiny Paul	2020
---------	--	----------------------	------

Journal	Comparative Analysis of Standalone SPV System with LUT and P&O MPPT Algorithm Sarika E.P,Josephkutty Jacob,Sheik Mohammed,ShinyPaul International Journal of Advanced Science andTechnology	Prof. Dr. Shiny Paul	2020
---------	---	----------------------	------

Journal	A survey on image segmentation of blood and bone marrow smear images with emphasis to automated detection of Leukemia DOI Anilkumar K K, Manoj V J, Sagi T M Biocybernetics and biomedical engineering	Dr. Anilkumar K. K.	2020
Journal	A Novel Hybrid Maximum Powerpoint Tracking Technique with Zero Oscillation based on P & O Sarika E.P,Josephkutty Jacob,Sheik Mohammed,ShinyPaul International Journal of Renewable Energy Research	Prof. Dr. Shiny Paul	2020
Journal	Solar Photovoltaic System with High Gain DC to DC Converter and Maximum Power Point Tracking Controller Shiny Paul, K. Poullose Jacob, Josephkutty Jacob Journal of Green Engineering	Prof. Dr. Shiny Paul	2020
Journal	Solar PV System with Modified High Gain SEPIC Converter and Multiple Step Size P&O MPPT Technique Shiny Paul,Sunilkumar N, Josephkutty Jacob International Journal of Advanced Science andTechnology	Prof. Dr. Shiny Paul	2020
Journal	VLSI implementation of low complexity MIMO systems using SEC- QPSK detection circuits, Nishant,Nidhin sani,Harikrishnan TEST Engineering and Management,	Prof. Dr. Harikrishnan D	2020

<https://cucek.cusat.ac.in/research-areas.php?p=8>

Research Areas & Publications

Exploring the frontiers of Engineering and Science and showcasing our scholarly contributions.

Core Research Domains

Embedded Systems & IoT

Intelligent sensors and low-power hardware for industrial automation.

AI & Machine Learning

Deep learning and vision systems for healthcare and security.

Renewable Energy

Optimization of microgrids and solar energy harvesting.

Wireless Networks

Research focused on the design, optimization, and security of communication systems that transmit data over wireless channels without physical connections.

Cryptography

Research focused on developing techniques for secure communication through encryption, authentication, and data protection

Signal Processing

Analysis of signals in frequency domain, Digital Filter design etc.

Interdisciplinary

Featured Publications

Research Works

Type	Publication Details	Faculty	Year
Journal	Implementation of blind signal dereverberation of speech signals using CUCKOO independent component algorithm, Nishant,Nidhin sani,Harikrishnan TEST Engineering and Management,	Prof. Dr. Harikrishnan D	2020

Conference	Adaptation of smart cities in the South African Internet of Things context, Kishor krishnan Nair, Hari krishnan D International Conference on Artificial Intelligence, Big Data, Computing and Data Communication Systems (icABCD), Durban, South Africa, 2020	Prof. Dr. Harikrishnan D	2020
Journal	Towards a fast and secure fingerprint authentication system with a novel encoding scheme DOI D. Harikrishnan, N. Sunilkumar, Shelbi Joseph and Kishor Krishnan Nair International Journal of Electrical Engineering	Prof. Dr. Sunilkumar N	2019
Journal	Towards a Fast and Secured Fingerprint Authentication System based on a novel encoding scheme DOI D Harikrishnan, N Sunil kumar, Shelbi Joseph IJEEE	Prof. Dr. Harikrishnan D	2019
Journal	Performance Analysis of Standalone Photovoltaic System with Variable Step Size Zero Oscillation Perturb & Observe Maximum Power Point Tracking Technique Sarika E.P, Josephkutty Jacob, Sheik Mohammed, ShinyPaul Journal of Green Engineering	Prof. Dr. Shiny Paul	2018
Journal	A Comprehensive Review On Question Answering Systems Anitha Mary M O Chacko International Organization of Scientific Research [IOSR] Journal of Engineering	Mrs. Anitha Mary M O Chacko	2018

Conference	Colour based Image Segmentation for Automated Detection of Leukaemia: A comparison between CIELAB and CMYK colour spaces Anilkumar K K, Manoj V J, Sagi T M IEEE International Conference on Circuits and Systems in Digital Enterprise Technology (ICCSDET)	Dr. Anilkumar K. K.	2018
Conference	"Design, Performance Analysis and Optimization of a 100 MW Concentrated Solar Power Plant with Thermal Energy Storage" Dr. Praveen R P, Sankaran Nampoothiri K International Conference on Current Trends towards Converging Technologies- ICCTCT 2018	Mr. Sankaran Nampoothiri K	2018
Conference	Comparative Study of Standalone PV System with InC and Look Up Table MPPT Algorithm Sarika E.P, Dr. Josephkutty Jacob, Dr Sheik Mohammed S, Shiny Paul IEEE International Conference in New Trends in Engineering & Technology (ICNTET 2018)	Prof. Dr. Shiny Paul	2018
Conference	Performance Analysis of Solar Photovoltaic System with Fuzzy Based Variable Step Size MPPT Algorithm Using Matlab/Simulink Sarika E.P, Dr. Josephkutty Jacob, Dr Sheik Mohammed S, Shiny Paul IEEE International Conference on Circuits and Systems in Digital Enterprise Technology	Prof. Dr. Shiny Paul	2018
