School of Engineering,CUSAT

School of Engineering (SoE) functions through its Civil, Mechanical, Electrical, Electronics, Computer Science, Safety & Fire, Information Technology and Applied Sciences and Humanities divisions.

All seven B.Tech programmes of School of Engineering have been accredited by National Board of Accreditation (NBA) under Tier I category, till 30 June 2025 and three M.Tech programmes - Geo-technical Engineering, Industrial Safety . and Mechanical Engineering(Thermal Engineering), are accredited by NBA till 2026. The University has been reaccredited with A+ grade by NAAC.

School of Engineering has been well accepted as a research center and a major consultancy center. A number of research projects have been sanctioned to the School by agencies like DST, ISRO, AICTE, UGC, Coir Board etc. Having more than 3000 students, School of Engineering is the largest academic constituent of the University.

The School offers part-time B.Tech and M.Tech degree courses in various disciplines in

Engineering. Doctoral Programme is offered under all divisions.

VISION

To become, an engineering educational institution of international standing by striving continuously in pursuit of excellence in education, research, entrepreneurship and technology related services to the society .

MISSION

To provide high quality education in major engineering disciplines from undergraduate through doctoral levels through a creative balance of academic, professional, and extracurricular programmes To foster and maintain mutually beneficial partnerships with alumni, industry, state and central governments through public services assistance and collaborative research To be a major contributor to global technology base through scholarship and research

Principal's Message

The School of Engineering (SOE) at the Cochin University of Science and Technology (CUSAT) began its journey in 1978 with a modest start, offering a few postgraduate and Ph.D. programs in Engineering. Today, it has grown into the largest academic unit of CUSAT, with over 3,000 students, firmly establishing itself as a premier centre for engineering education and research. CUSAT, a State Government University, was accredited with an A+ grade by NAAC in October 2022.

Department of Civil Engineering

Division of Civil Engineering is one of the major divisions in School of Engineering, established in 1979. Apart from the B. Tech programme in Civil Engineering, the Division offers M.Tech Programme (Full Time) with specialization in Geotechnical Engineering, Structural Engineering and M. Tech Program (Part Time) with specialization in construction Engineering and Management. The Civil Engineering division is well accepted as a Research and Consultancy Centre. The broad areas of research include Geotechnical Engineering, Structural Engineering, Sustainable and Construction Techniques, Water Resources and Environmental Engineering. A number of research projects have been sanctioned to the Division by agencies like DST, AICTE, UGC, KSCSTE, Coir Board, Coconut Development Board etc. The course and curriculum of Civil Engineering is constantly reviewed and revised to adapt the ever changing needs of the construction industry and to provide quality education for successful career in Engineering.

B. Tech programme of Civil Engineering and M.Tech programme of Geotechnical Engineering are accredited by NBA (Tier I) till June 2025 and June 2026 respectively.

VISION

1. To promote quality education, research & consultancy for Industrial and societal needs.

MISSION

1. Imparting quality education to the students and enhancing their skills to make them globally competitive mechanical engineers. 2. To inculcate professionalism and moral values in budding Civil Engineers through sustainable engineering practices. 3. To inspire the new generation of Civil Engineers with innovative ideas and creativity for lifelong learning, to meet the current and future challenges of nation in a global perspective.

Department of Computer Science & Engineering

The Division of Computer Science and Engineering was established with the objective of imparting quality education in the field of Computer Science and Engineering. The division offers undergraduate, post-graduate and research programs (both full-time and part-time) in Computer Science and Engineering. The undergraduate program has an annual intake of 90 students and the post-graduate program specializing in Cyber Security has an annual intake of 18 students. The Division is involved in active research in diverse areas such as machine intelligence, image processing, big data, network security and natural language processing.

The Computer Science and Engineering Division is committed to provide a supportive, friendly and challenging environment for teaching, learning and research. Our education model focuses on providing breadth and depth of knowledge in a multitude of computing disciplines like computer architecture, computer networking and algorithm analysis and design. The division strives to educate students as the next generation engineers, capable of becoming leaders in industry, government and academia. The meticulous theoretical and

practical knowledge imparted ensures 100 percent placement for the students in highly reputed companies. Our students perform exceedingly well in national and international competitive exams including GATE, CAT and GRE and find openings for higher studies in reputed universities in India and abroad. B. Tech programme of Computer Science and Engineering has been accredited by NBA (Tier I) till June 2025.

Department of Electrical & Electronics Engineering

The Division of Electrical Engineering currently offers B.Tech, M.Tech and Ph.D programmes in engineering. Power and Energy Systems, Control and Instrumentation and Power Electronics are the active research groups in the division. The division provides excellent research ambience and has good track record in terms of research publication and number of Ph.D's produced. The curriculum for the under graduate and post graduate programmes are regularly reviewed and updated to suit the changing needs of the industry. The division strives continuously to impart professionalism to budding technocrats by providing quality education.

B. Tech programme of Electrical and Electronics Engineering has been accredited by NBA (Tier I) till June 2025.

VISION

To impart professionalism to budding technocrats by providing quality education and mould young minds to be technically competent, morally upright and socially committed citizens of the country

MISSION

To be a centre of excellence in Electrical and Electronics Engineering for the upliftment of mankind by imparting quality education. To provide innovative solutions to Electrical Engineering problems and energy crisis to solve socio - economic challenges faced by the society .

Our Features

Placement Highlights

The department has a consistent placement record, with students placed in top core and software companies. On-campus training in aptitude, soft skills, and technical interviews ensures students are placement-ready.

Lab Facilities

State-of-the-art labs in power systems, electrical machines, control systems, and embedded systems support hands-on learning. Advanced simulation tools such as MATLAB, AUTOCAD, and LabVIEW are available for design and testing.

Faculty Excellence

The department is supported by highly qualified faculty members, many with Ph.D.s and industry experience. Faculty actively participate in research, publish in reputed journals, and mentor students in academic and career paths.

Research & Industry Connect

Students are encouraged to engage in research through funded projects, technical publications, and patent filing. The department collaborates with government agencies and industries to foster innovation. The department maintains active collaborations with industries through MoUs, internships, expert talks, and joint projects. Regular industrial visits and workshops help bridge the gap between academia and industry.

Student Support & Activities

Students benefit from mentorship programs, technical clubs, and national-level events like hackathons and symposiums. Regular skill development workshops enhance both technical and soft skills.

Accreditation & Recognition

The Electrical Engineering department is accredited by NBA, reflecting the quality of its academic standards and outcomes. The curriculum follows AICTE guidelines and emphasizes outcome-based education.

The Division of Electronics and Communication Engineering, School of Engineering was conceived in 1995 with the objective of imparting quality education in the field of Electronics and Communication Engineering. The division offers B-Tech with an annual intake of 90 students, one M-Tech Programme with specialization in Wireless Technology and PhD programme. The division has necessary strengths to enable the students to imbibe, incubate and innovate and to become entrepreneurs to serve the community. State-of-the-art facilities are provided by the division to empower students to meet with the challenges in cutting edge areas. The Faculty strive hard to educate students as Next-Generation - Engineers capable of becoming leaders in industry, Government and academia.

B. Tech programme of Electronics and Communication Engineering has been accredited by NBA (Tier I) till June 2025.

VISION

To be a supreme centre of quality Electronics Engineering education with a focus on lifelong learning, teamwork and leadership, thus creating a platform for industrial consultancy with global standards through intense research.

MISSION

Work with a commitment to the highest possible standards of quality in the areas of teaching, research and service. Develop a full-fledged centre of learning in various fields of Electronics & Communication Engineering Produce competent engineers adequately prepared to face challenges of the society, adhering to moral and ethical values

Our Features

Faculty & Facilities

The department has experienced faculty with research credentials, advanced infrastructure, and funded labs supporting internships and projects

Achievements

Recognized with NBA Tier 1 accreditation, research patents and laurels brought in by active student participation in national and international competitions. Alumni occupying key positions in leading MNCs, Healthcare and GOI

Placement & MoUs

Strong placement outcomes backed by industry-alumni sponsored labs and international MoUs enabling internships and global exposure

The Division of Information Technology was established with the objective of imparting quality education in the field of Information Technology. The division offers a broad based undergraduate programme in Information Technology and post graduate programme in Business Analytics and Intelligence. State-of-art computing facilities are provided by the department to empower students to meet with the cutting edge technologies. The division has all the amenities to provide necessary strengths to enable the Students to Innovate and become Entrepreneurs to serve the community. The Division moulds young outstanding engineers who are academically strong in both theory and practical.

B.Tech programme of Information Technology has been re-accredited by NBA (Tier I) till 2025.

VISION

To become a world leader in higher education and research. in the field of Information Technology.

MISSION

To impart state-of-the-art knowledge in the field of Information Technology with a focus on

developing required competencies. and virtues to meet the requirements of the society and to become a centre of excellence in this field. To attract graduate, post-graduate and research students and train them in innovative areas. so that, they can impress various recruiters from industry and academia and also become entrepreneurs in Information Technology.

Our Features

About the division

The Division of Information Technology was instituted in the year 1995 and the pioneers to have offered Information Technology as a Bachelors in Technology degree (1st time in the country).

Accreditation

International Accreditation: Accredited by the Institute of Analytics (IoA), UK for both B.Tech and M.Tech programs , enhancing global visibility and employability in data analytics. National Accreditation Tier 1 accreditation for B.Tech IT, aligned with the Washington Accord, ensures global mobility through recognition by its signatory bodies.

IT @ SoE, CUSAT - Learn, Build, Lead

Cutting-edge curriculum, strong industry tie-ups , hands-on projects, global exposure, and the perfect launchpad for a tech-driven career.

Department of Mechanical Engineering

The Mechanical Engineering division is one of the major divisions of the School of Engineering in terms of faculty members available. There are basically three streams in the

division.(i) Thermal and Fluid Engineering.(ii) Mechanical Engineering Design.(iii) Manufacturing and Industrial Engineering

Apart from the part time M. Tech programme with Production Engineering specialisation, the division offers full time M. Tech programme with Thermal Engineering Specialisation. The division is an active research centre for many research scholars and numerous consultancy projects have been completed successfully. The course curriculum of Mechanical Engineering is constantly reviewed and revived to adapt to the ever changing needs of the industry. The division strives to educate students as the next generation engineers capable of becoming leaders in industry as well as in academia.B. Tech programme of Mechanical Engineering and M.Tech programme of Mechanical Engineering(Thermal Engineering) are accredited by NBA (Tier I) till June 2025 and June 2026 respectively.

VISION

The Mechanical Engineering Division strives to be recognized globally for outstanding education and research leading to well-qualified engineers, who are innovative, entrepreneurial and successful in advanced fields of engineering and research

MISSION

Imparting quality education to the students and enhancing their skills to make them globally competitive mechanical engineers Maintaining vital, state-of-the-art research facilities to provide its students and faculty with opportunities to create, interpret, apply and disseminate knowledge. To develop linkages with world class R&D organizations and educational institutions in India and abroad for excellence in teaching, research and consultancy practices.

Our Features

Infrastructure & Facilities

Highly equipped laboratories and advanced computing facilities,smart classrooms

Collaborations & Centres of Excellence

Actively collaborates with reputed institutions including Coventry University (UK) and IIT Madras. Centre of Excellence by Daikin Air Conditioners Pvt. Ltd., facilitating research and industry-aligned training in HVAC systems.

Research, Industry Connect

Consultancy and research projects with national R&D agencies.

Student Chapters

Vibrant Co-curricular activities with an active SAE CUSAT chapter and MESAC (Mechanical Engineering Students Association of CUSAT).

Achievements

UG and PG programmes accredited by National Board of Accreditation under Tier 1 (Washington Accord).

Placements

Excellent placement statistics, with students placed in reputed industries and organizations across India and abroad.

Department of Safety and Fire Engineering

The Division of Safety and Fire Engineering is running an undergraduate programme of Bachelor in Technology in Safety and Fire Engineering, an innovation by the University made for the first time in India in 1996, with an annual intake of 60 students and a fulltime post graduate programme of Master of Technology in Industrial Safety with an annual intake of 18. Both the programmes are approved by the AICTE. The B.Tech. (S&F Engg.) programme is accredited by the National Board of Accreditation in 2015 and also recognized by the Department of Factories and Boilers, Govt. of Kerala in 2003 for the post of statutory Safety Officers under the Factories Act. The placement record of both the programmes are excellent, the major takers being DRDO, British Safety Council, Shell, IOCL, BPCL, Reliance Industries, Tata Steel, Oil India, IOTL, Cairn Energy, L&T and many other public and private concerns of repute. The Division is active in research, training and consultancy. A good number of research scholars are pursuing their PhD under the Division. The Division has capability and past experience in undertaking consultancy works and providing services in diverse fields, such as, structural design, design approval, health monitoring of structures, certifying structural stability, fire protection of buildings and structures, fire investigation, safety audit, preparation of legal compliance registers, EIA, HAZOP study, risk analysis, LOPA, preparation of emergency plans, accident investigation etc.

B. Tech programme of Safety and Fire Engineering and M.Tech programme of Industrial Safety are accredited by NBA (Tier I) till June 2025 and June 2026 respectively.

VISION

To become a Centre of Excellence in Safety and Fire Engineering through advanced research, training and consultancy

MISSION

To provide quality education and to prepare nationally and internationally competitive undergraduate and postgraduate students for a successful career in safety, occupational health, environmental management and fire protection engineering. To promote research in the field of safety, occupational health, environmental management and fire protection engineering for improving safety and fire engineering practices. To encourage students for advanced study and research and to improve the safety standards of the society and the nation at large.

Our Features

Accreditation

Our B.Tech and M.Tech Programmes are accredited by National Board of Accreditation under Tier 1 and by BCSP (The Board of Certified Safety Professionals), USA .

Industrial and Research Colaboration

Networking with global and national organisations (MKOPSC Texas, A&M University USA, DRDO, ISRO, BPCL, CSL, NSC, Department of Factories and Boilers), Fire and Rescue services.

Placements

Campus Placement in core companies including Public sector. 100 % of all eligible students get placed every year with 30% receiving multiple offers.

Research and Consultancy

34 PhD's guided by our faculty members. Good number of high quality publications and involvement in consultancy service.

Industry ready Graduates

Mandatory internships during every summer break Industry based and Research based student projects.

Alumni network

Association of Safety and Fire Engineers with a vintage of 25 years, supporting the students for placement, post placement induction and career guidance.

Department of Applied Sciences

The Applied Science Division at the School of Engineering plays a pivotal role in supporting all branches of the school. With a distinguished faculty specializing in mathematics, physics, chemistry, environmental studies, and English life skills, the division fosters a multidisciplinary approach to education. Beyond providing foundational knowledge and essential life skills, the division is also dedicated to advancing research and offers PhD programs, contributing significantly to the academic growth and innovation within SoE.

SOE Library

About

School of Engineering (SOE) Library is one of the largest libraries that caters the information needs of students, teachers and research scholars belonging to the School. The library provides free and equal access to all sources of information. Open access is provided to ensure free searching, selection and use of library materials. Library tickets are issued to members for lending the books for outside use. The reading room of the library provides facilities for reference. The library is kept open for 9½ hours a day from 9 am to 6.30 pm without break. The library functions are managed by professionally competent staff members. The library keeps the resources in a secure environment for long use

Library Facilities

SOE library has 7 Desktop Computers (Intel core i5) with DVD drive and a server. Students can use the desktops for accessing online based educational materials including e-books, e-journals, e-thesis, etc. Students can bring their laptop inside the library and access web based resources using wifi connection. The library has one flatbed scanner for digitizing materials essential for the academic community. The entire past question papers of all branches of B.Tech are kept in digital form. These are also archived in CUSAT digital library <http://dspace.cusat.ac.in/jspui/> for any where any time access.

Library Working Hours

The library is kept open about 271 days in an academic year. Per day it is kept open for 9½ hours. (From 9 am to 6.30 pm)

Library collection and services

The collection of SOE library is built around the teaching and learning process of the parent organization. The library caters the needs of the students by ensuring a sound reference collection, circulating text books and general books, supplying CDs, and journals, and providing analog or digital copies of the materials. A book bank section is maintained by the library for students belonging to Scheduled Castes and Scheduled Tribes. The PG section includes books for the advanced studies in engineering. Online catalogues (<http://172.144.167:81>) are provided for searching library materials. An alphabetical list of subjects is displayed with class numbers and shelves numbers for easy access and

selection. New arrivals are displayed for some days.

The SOE Library offers the following services

- Lending of Books
- Reference service
- Book Bank Scheme
- Scanning and CD writing
- Document Delivery Service by arrangement with University library
- Current Awareness Service-Articles
- Reservation of Books
- Wifi access
- Photocopy service
- Academic publishing workshops-UGC-CARE/Scopus, Web of Science
- News archiving for CUSAT
- Adding new articles to CUSAT website
- Scanning and Archiving Question papers
- Scanning and Archiving University Publications

Digital Library <http://dspace.cusat.ac.in>

CUSAT is maintaining a digital library for accessing faculty papers, seminar reports, teaching materials, syllabus, question papers etc. The Digital Library has been created using the DSpace open source software. School of Engineering is in the forefront of applying information technology to library service. It has added the largest number of contents to the digital library. CUSAT B.Tech Syllabus, List of Books, Journal Content pages and more than five thousand previous year question papers were added to the Digital Library. There are available online at <http://dspace.cusat.ac.in/>

Digital Library homepage

KOHA Open Source Library Management Software

The application of open source software is prominent in CUSAT libraries. SOE Library is the

first library in CUSAT to adopt open source software for library automation. Since 2007 onwards it uses Koha open source software for various library functions that include Online Catalogue, barcode generation for books and readers tickets, issue and return of books and stock verification.

Online Catalogue

The catalogue of the library can be searched online via intranet. It is available at <http://172.144.167:81/> (Intranet)

Library Cards

Three cards are issued for B.Tech Students, M.Tech Students, Contract Lectures in the School. Six cards are issued to permanent faculty members of the School.

Loan Period

Books are issued for a period of 15 days both for students and faculty. They can renew the loan period for another 15 days. After one month, the book has to be returned to the library. However, the library charges no fine for overdue materials.

Issue and Return

The average number of books issued per day is 300 and returned is 250.

Purchase and use of current titles, important journals, and other reading materials.

The SOE library ensures the availability of current titles by browsing publishers printed catalogues, searching in online books shops, reading reviews, and receiving recommendations from faculty and students. Prominent journals are identified by the faculty concerned.

Internet services

The SOE library has Internet connection with 1.0 Gbps speed. Two systems are kept for students to access Internet. The library also has wifi connection.

Building and Location

The library has 304 Meter Square Carpet area and 96 Meter Square Reading area. Its seating capacity is 70.

The library is centrally located within the Campus. Students can easily access the library from different department premises.

Library advisory committee

The library has an advisory committee for giving timely directions for books and journal acquisition, purchasing of software, computers and other accessories, helping to frame library policies and priorities.

Annual Library Budgets

The library is allotted an annual budget both for books and Indian journals. Foreign Journals are subscribed and supplied by the University Library.

Conclusion

The library of School of Engineering is an important centre of learning, teaching and research in all fields of engineering. The library has built a sound collection of books on different areas of engineering and technology. It has a sound collection of current and bound volumes of important journals in field. It is in the process of computerization and provision of more advanced library services for its community of users.

About

IIC SOE, CUSAT was established in the academic year 2021 by the Head of the Institution, Prof. (Dr) George Mathew and the President of the IIC SOE chapter Prof. (Dr) K.K Saju. In the academic year 2020-2021, we participated in IIC 3.0 and secured two stars. During the academic year 2021-2022, we actively participated in IIC 4.0 and conducted around 40 programs including IIC-driven, MIC-driven, Self-driven and activities in the theme- Startup Innovation Entrepreneurship & IPR, and secured Three stars. We were one among the selected colleges to conduct the Impact lecture series and successfully organised Four different session under the scheme. We actively participated in IIC 5.0, IIC 6.0 and IIC 7.0. IIC 8.0 is currently running in this academic year 2025-2026. Quarter One activities are completed View details.

Training and Placement Cell

About

The Placement Cell coordinates all placement activities at SOE. The placement Officer, staff, student coordinators strive hard to liaison with recruiters, to maintain the communications, slot fixing, communicating with students and the related activities. CUSAT Central Placement Office facilitate the selection process of best talents in our campus. The placement cell always understands and appreciates the priorities of the recruiters and provides the best response at all times. The students are well informed about the recruiter's expectations to get them ready to face challenges. The recruitment process will be seamless and every effort will be made to complete the recruitment process in a hassle-free manner. The recruitment cell will make sure that the entire process is transparent and the best students meet the right employer. Overall, we take all the efforts to have a pleasant and successful placement drive for you at CUSAT. We welcome you to CUSAT the campus drive.

Anti-Narcotics Club

About

As per the instruction from the Govt. of Kerala, an Anti-Narcotics club have been formed in the institution. The objective of this club is to create and spread awareness among the students on the ill effects of drug abuse. The Anti-Narcotics Club is a vital initiative aimed at raising awareness about the dangers of substance abuse and promoting a healthy lifestyle among individuals, especially youth. Through various activities, workshops, and campaigns, the club educates members and the community about the risks associated with narcotics and encourages them to make informed choices. By fostering a supportive environment and providing resources, the club empowers individuals to resist the temptation of drugs and cultivate positive habits. Its mission is to create a society that values well-being, resilience, and informed decision-making, ultimately contributing to a safer and healthier community.

Arts

About

Vipanchika is the annual college fest conducted by the School of Engineering, CUSAT, Kochi. Vipanchika blends a series of fine-arts, socio-cultural and literary events, along with a variety of workshops, exhibitions and informal events. The fest attracts thousands of visitors to the campus annually, and is one of the biggest cultural fests in India. This three day long annual festival held towards the end of January every year, is a student-run non-profit organization which caters primarily to the youth. Vipanchika has attracted major sponsors and extensive media coverage over the years. The team of Vipanchika consists of student volunteers who work to promote creativity and intellectualism, and it symbolizes a place to be together and celebrate.

Sports

About

School Of Engineering is Promoting sports at par with regular academics. The Campus has well recognized the value of sports and physical activities as a means of developing personality promoting social harmony and discipline. The annual sports fest provides a platform for students to unwind themselves and to indulge in activities to boost their overall blooming. The campus provides ample opportunity to the students to utilize their leisure time with physical activities to reduce their stress and inculcate a lifetime physical activity behaviour in their day-to-day education system. Physical fitness is not only the most important key to a healthy body but also the basis of dynamic and creative intellectual abilities. Students are encouraged towards mass participation in state level and national level events..

“Hey, I am Shibin from the batch 2015-2019. Currently working with Techstars Ventures as Global Startup Analyst for 50+ startup accelerators across the world. I can never forget the contributions of the IT department & my faculties towards helping me to explore and experiment with different career opportunities during my college days. They do really care about students who want to do challenging and exceptional things in their careers, especially in entrepreneurship and innovation.”

“The B.Tech programme offered by the Department of IT at CUSAT provided a solid foundation to start my career in the Software Industry. The courses offered are an eclectic mix of theoretical and practical aspects of Software Engineering. The pedagogy is in sync with the industry standard and equips students well to solve real-world challenges. At Cochin University, I have developed a lifelong love for learning, which is still helping me grow and stay on top of the dynamic IT industry.”

“The four years of my life at CUSAT have been nothing but perfect in its own impeccable way. The teachers pushed me in my studies as well as the extracurricular activities of conducting coding classes, helping me build a strong community of code lovers which I nurture with all my love and care. The whole experience of pursuing my interest and living my life at the campus has built the person I am today.”

“Looking back, I have fond memories of my engineering days at CUSAT. Along with a good, holistic and relevant curriculum, the faculty also made sure we had an inclusive and enabling environment for learning and growth. The IT Fests and other events conducted under the guidance of the department played a strong part in developing our interpersonal, organisational and leadership skills. Also, thanks to the campus recruitment program at CUSAT, I was able to kickstart my career with TCS right after my engineering course. Indeed proud to be an alumnus of CUSAT, BTech IT!”

“I am a proud alumnus of SOE, Cusat and I belong to the second batch of IT (1999-2003) which consisted of 80 enthusiastic batchmates from diverse backgrounds. Success is a journey, not the destination and SOE has been consistent in making our journey mesmerizing. It is the place that shaped us to the place which we are right now. In our four years in this wonderful institute, SOE has given us the chance to explore our potentials without inhibitions, build our skills and evolve in diverse domains. State of the art and well-managed computing facilities, knowledgeable faculty, good student-faculty ratio, and a solid base of theory cum practical based learning approaches have made the overall experience at SOE an enriching one. To any new student coming to SOE, Cusat, I would say this- “take every chance you get here, because the memories you make here, are going to last you a lifetime.” For anyone who yearns to learn, to explore, and to evolve, SOE is indeed the place to be.”

“At CUSAT, I learnt the value of taking risks, ownership, and having single minded focus, when we conducted our own state wide IT fest. Creating our own campus video when the norm was a two page brochure and to convince the IT corridors of Technopark was a case study in taking bold steps and aiming higher. My class representative experience was the first lessons in leadership and how to handle different voices and reach a productive conclusion. The mix of arts, sports and games along with academics gave me the right perspective and balance. I carried forward some of those perspectives into my professional career, where I could balance between core business objectives and a great place to work. Camaraderie and friendships I enjoyed during those years gave me life long lessons in human relationships, which I maintain to this day.”

I am proud and honoured to be associated with such a prestigious institution. The connections and relationships formed during the time have provided immense support during the thick and thin of my personal and professional life. I am immensely thankful to have known and spent time with such incredible fellow students, teachers and staff. The experiences and lessons learned taught me to stay humble in adversities and successes. I look forward to supporting the current and future generations of students and the institution to the best of my abilities.

I am an Electrical and Electronics Engineering graduate from SOE, CUSAT. Being associated with the youngest branch on campus back then, was a pleasure for me. While the syllabus, lab, curriculum is updated regularly to equip the students with relevant, contemporary skills, what really stood out for me were the teachers. Their knowledge, experience coupled with patience and teaching style created an innovative and encouraging space for young engineers

For the last decade of my life, I have been benefiting greatly from the outstanding mentoring I received while pursuing my Electrical and Electronics Engineering Bachelors of Technology at the School of Engineering, CUSAT. My bachelors study induced an interdisciplinary research mindset and over the years I got to learn and carry out research in topics such as distributed cloud computing, computer vision, artificial intelligence, and even neuroscience. Now, after my doctoral studies, I am working as a postdoctoral researcher at the Hillman Cancer Center at UPMC in Pittsburgh, USA where I am taking yet another step in my interdisciplinary journey, towards developing AI algorithms to study spatially distinct genomic profiles and microenvironments of tumors, infectious, and viral diseases.

I earned my graduation in Electrical and Electronics Engineering from CUSAT. I was lucky enough to get two job offers of which, one in the IT sector and the second one in the manufacturing industry and I chose the latter one without any hesitation. The teachers in CUSAT ensure that the students develop an interest in the subject rather than just obtaining a certificate. This helped me in achieving something which I could never imagine in my life. In Railways, my present work requires a techno-managerial person which I can proudly say, I inherited a part from my campus life at CUSAT.

Being part of the pioneer batch of B Tech Safety and Fire Engineering at the School of Engineering, Cochin University (CUSAT), is a privilege I will always cherish. I am deeply grateful to the university for shaping me into the person I am today—professionally competent, confident, and purpose-driven. CUSAT is more than just an academic institution; it is a sacred ground where raw potential is nurtured through discipline, knowledge, and relentless effort. It transforms students into leaders and dreamers into doers. Even today, each visit back—especially during campus recruitment—reminds me of the extraordinary calibre of students being moulded within these walls. Meeting such talented and passionate individuals reaffirms my belief that the legacy of excellence we began is in inspiring hands. All the best to CUSAT School of Engineering placement cell and students.

PhD Programmes @ SOE.

School of Engineering, CUSAT is offering PhD programmes in various research areas of Engineering.

Candidates are advised to contact the Department / visit web sites of Departments for having an understanding of their fields of research. They may contact guides of the Department of their concerned field of study and check the availability of research guides. After getting the consent of a guide the candidates have to obtain the hard copy of the application form (within the prescribed time as per CAT Notification) from the office by making the payment of required fee through See Notification for CAT for fee details. The duly filled in applications should be submitted within the time prescribed in the CAT Notification. Once the applications are submitted, the concerned Department will intimate the candidate the schedule for DAT, Interview etc. in due course.

Eligibility / Minimum required qualification

Candidates seeking registration to the Ph.D programme shall hold a Master's Degree from a recognized University with 55% marks in the qualifying examination, or a CGPA of 6.0 in the 10 point scale or an equivalent grade in similar scales. A candidate belonging to SC/ST community is eligible for concession upto 10% marks for admission provided that he/she has a pass in the qualifying examination. Candidates seeking registration shall have passed the Departmental Admission Test and ranked as per the norms laid down in the regulation. Candidates who possess national/state research fellowship with valid scores, with committed financial assistance at the time of seeking admission, in any of the national/state level eligibility tests conducted by the agencies or by industries so recognized by the University for the purpose, are exempted from provision (ii) above. Teachers of Universities/Aided Colleges in Kerala/Teachers who are working in Quasi Government/Government Institutions recognized by CUSAT and scientists in National Level Research Laboratories, who have put in five years of continuous service, and foreign nationals who have been sponsored under a scholarship scheme by the Government of India for undergoing Ph.D. programme in India, are exempted from provision (ii) above.

About School of Engineering

With the aim of providing quality higher education on par with international standards, School of engineering was established in 1978 for offering part-time M.Tech programmes in the major disciplines of engineering viz.Civil, Mechanical, Electrical and Chemical Engineering for practicing engineers in and around Cochin. The mission of the School of engineering is to produce human resources those who are creative , competitive and innovative with high intellect and ethical values. It always strives to impart quality education to meet the needs of profession and society, and achieve excellence in teaching – learning and research. School of engineering persistently seeks and adopts innovative methods to improve the quality of education on a consistent basis. Research activities were introduced in 1981 with Ph.D. Programmes.The School introduced B.Tech. Programmes in Civil Engineering, Mechanical Engineering, Electronics and Communication Engineering, Computer Science and Engineering and Information Technology in 1995, which turned out to be a milestone in the growth of the School. B.Tech. in Safety and Fire Engineering was added in 1996. A five-year integrated M.Sc. Program in Software Engineering was started in 2001. The campus has a cosmopolitan atmosphere with students from all corners of the globe. Experienced and learned teachers are strongly encouraged to nurture the students. SOE creates a converging learning environment to serve a dynamically evolving society and promote innovation for sustainable solutions by forging global collaborations with academia and industry in cutting-edge research.

There has been a consistent growth in our placements record too. Students graduating from School of engineering have contributed to the incredible pace of India's growth over the last couple of decades. The access to world class academics and facilities at SOE provides our students the tools to excel in this highly competitive and fast advancing world. The Placement Cell has been striving continuously to match the students with their dream jobs resulting in a win-win situation for the student and the hiring organization. The School of Engineering has been well accepted as a research center. A number of research projects have been sanctioned to the School by agencies like DSDT,Central Water Commission, ISRO, AICTE, Coir Board, Kerala State Coir Corporation, etc. These have helped to establish fully equipped laboratories and promote research activities. These facilities are adequate to cater to the needs of Research activities. And also the campus is vibrant with a lot of co-curricular activities helping to bring out all- rounded individuals.

Principal's Message

The School of Engineering (SOE) at the Cochin University of Science and Technology (CUSAT) began its journey in 1978 with a modest start, offering a few postgraduate and Ph.D. programs in Engineering. Today, it has grown into the largest academic unit of CUSAT, with over 3,000 students, firmly establishing itself as a premier centre for engineering education and research. CUSAT, a State Government University, was accredited with an A+ grade by NAAC in October 2022.

The school began offering B.Tech programs in five different fields in 1995: information technology, computer science and engineering, mechanical engineering, civil engineering, and electronics and communication engineering. A B.Tech program in Electrical and Electronics Engineering was added in 2003, and a B.Tech degree in Safety and Fire Engineering was first offered in 1996. In order to best serve all stakeholders, the school's seven departments currently offer seven undergraduate programs, ten graduate programs, and a PhD in the majority of engineering subjects. Through its research and consulting operations, the school has completed projects totalling over 300 lakh rupees. During Phases II and III of the Technical Education Quality Improvement Programme (TEQIP), the school upgraded its research and other facilities and received Rs. 17 core.

By encouraging innovation and entrepreneurship, sports, games, yoga, and cultural events, SOE actively cultivates a lively campus culture. Proactive organisations like the Anti-Ragging Committee, Anti-Narcotic Club, and Grievance Redressal Cell serve the goal of student welfare. With over 75% of students from the 2024-25 batch landing jobs with competitive benefits, campus placements have been outstanding. According to a national AMCAT survey, our students outperformed all other TEQIP-funded universities in India.

A national entrance exam called the CUSAT Common Admission Test (CAT) is used to admit students to undergraduate programs. Additionally, hiring faculty is done nationwide, creating a diverse and inclusive school community with representation from both India and elsewhere

About

IIC SOE, CUSAT was established in the academic year 2021 by the Head of the Institution, Prof. (Dr) George Mathew and the President of the IIC SOE chapter Prof. (Dr) K.K Saju. In the academic year 2020-2021, we participated in IIC 3.0 and secured two stars. During the academic year 2021-2022, we actively participated in IIC 4.0 and conducted around 40 programs including IIC-driven, MIC-driven, Self-driven and activities in the theme- Startup Innovation Entrepreneurship & IPR, and secured Three stars. We were one among the selected colleges to conduct the Impact lecture series and successfully organised Four different session under the scheme. We actively participated in IIC 5.0, IIC 6.0 and IIC 7.0. IIC 8.0 is currently running in this academic year 2025-2026. Quarter One activities are completed View details.

Anti-Narcotics Club

About

As per the instruction from the Govt. of Kerala, an Anti-Narcotics club have been formed in the institution. The objective of this club is to create and spread awareness among the students on the ill effects of drug abuse. The Anti-Narcotics Club is a vital initiative aimed at raising awareness about the dangers of substance abuse and promoting a healthy lifestyle among individuals, especially youth. Through various activities, workshops, and campaigns, the club educates members and the community about the risks associated with narcotics and encourages them to make informed choices. By fostering a supportive environment and providing resources, the club empowers individuals to resist the temptation of drugs and cultivate positive habits. Its mission is to create a society that values well-being, resilience, and informed decision-making, ultimately contributing to a safer and healthier community.

Association of Computer Engineering Students(ACES)

About

ACES refers to the Association of Computer Engineering Students from the prestigious School of Engineering, Cochin University of Science and technology (CUSAT).

Association of Computer Engineering Students, School of Engineering, CUSAT was found with a vision to across the boundaries of textbooks and explore a whole new world of technologies thus evolving as a complete engineer. It has strength of over 400 young aspirants. ACES organizes various programs such as seminars, webinars, alumni meet, online projects, CUSAT site maintenance, placement training with tech fest being one of its most successful endeavors.

Aces organised the annual techfest of Division Of Computer Engineering named "INSPIRE" during the year 2006-2008.ACES has also contributed very well in organising the annual techfest of CUSAT "XPLENDOR" . Beside this Aces is one of the most active community of students in school of engineering,CUSAT. ACES published its first technical magazine named "AUDEMUS" in 2006,which contained lots of technical stuff and due to popularity of the magazine it was begin to published every year and in 2010 it got a new avatar named "R3BOOT"

Topic: Big data analysis

Date: 06/10/2015 to 09/10/2015

Details: Spark and hadoop technologies were discussed

Topic: Workshop on advances in web technology using JAVA

Date: One week(8th to 12th april 2013)

Organiser: CSE,SOE,CUSAT

Details: Discusses advances in Java Web technologies

Organiser: CSE,SOE, CUSAT

Details: Hadoop,spark technologies were discussed

Date: 20th to 22nd November 2013

Details: MATLAB was discussed in detail

Date: 22/06/22 to 28/06/22

Organiser: SOE CS division

Details: Latest optimization algorithms were discussed

Date: 29/09/2022 to 31/09/2022

Details: latest developments in big data were discussed

Topic: ISTE sponsored E-seminar on Steps to research

Date: 19/09/2014-20/09/2014

Details: E-seminar on research methodology

Topic: Web technologies using Java

Details: latest trends in JAVA frameworks were discussed

Date: oct 6th to 9th 2015

Topic: STTP on Machine Intelligence and applications

Date: 05/05/2014-09/05/2014

Details: Technologies for machine intelligence were discussed

Date: One week(18th to 22nd feb 2013)

Details: Trends in embedded systems were discussed

Date: One week(4th to 8th march 2013)

Details: open source developments were discussed

Date: Two weeks(14/06/2010-26/06/2010)

Details: digital image processing tools and techniques were discussed

Date: Two weeks(01/11/2010- 14/11/2010)

Details: latest trends in IT and SW frameworks were discussed

Topic: Ph.D produced Candidate No:1

Details: Dr. Lija Mohan

Issue: Social Network Analysis

Name: International conference on information and communication technologies

Year: 3/12/14-5/12/14

Category: Computer science

Topic: Machine Intelligence and Applications

Date: 5/5/14-9/5/14

Details: 2014

Date: 26/11/2018

Details: 5 Day Workshop

Topic: Python programming

Date: 26/4/16

Organiser: Division of Information Technology

Details:

Date: 20/3/15

Organiser: Division of Electronics , CUSAT

Topic: Big data analysis using Spark and Map Reduce

Date: 16/11/15-20/11/16

Details: CUSAT

Topic: Research skills and methods

Date: 19/2/2016-21/2/2016

Details: IIT Kanpur

Date: 25/8/14-27/8/14

Details: IIM Kozhikode

Date: 1/7/2019

ELECTRICAL ENGINEERING STUDENTS' ASSOCIATION (EESA)

About

Electrical Engineering Students' Association (EESA) CUSAT is a vibrant core that connects the alumni, faculties and the students under the wing of Electrical Engineering Department, CUSAT. We radiate the spirit of togetherness and enhance the potential of our fellow members through various events, activities and games.

Year: August 2008

Year: August 2007.

Year: March 2007.

Topic: Sustaining Quality and Meeting World Standards through Engineering Accreditation

Date: Dec 26

Organiser: Netaji Subhash Institute of Technology, Sector - III Dwarka, New Delhi 112 078

Details:

Date: Dec 18-19

Organiser: School of Engineering, Cochin University of Science & Technology, Kochi-22

Topic: New frontiers on Drives Control and Power Electronics

Date: Jan 6-10

Details: Held at School of Engineering, Cochin University of Science & Technology, Kochi-22

Date: Nov 5-9

Date:

Course: B.Tech

Subject: Safety in Electrical Systems

Subject: Electrical Technology

Subject: Switch Gear and Protection

Subject: Design, Estimating and Costing

Subject: Power System III

Subject: Energy management in Electrical Systems

Subject: Distributed Generation

Electronics and Communication Students Association(ECSA)

About

ECSA aims to mold budding engineers into industry ready professionals. It is a platform for students to learn, grow and excel in the field of electronics and communication engineering. ECSA provides a opportunity for students to showcase their talents, passion and skills through various technical and cultural activities. ECSA ensures an active interaction of students with EC alumni and external industry experts. Through ECSA, students frequently interact with each other and evolve as a strong community. It nourishes the overall development of students including academic, professional, leadership, teamwork and essential employability skills.

Founded by graduates of the EC 2007 BTech admission, the ECSA legacy still continues. The goal of association is to enrich the multifaceted abilities of students, which aid in knowledge expansion and exposure.

ECSA gives students the forum to understand the principles of engineering education and apply it to the domains of electronics and communications. Students are encouraged to take part in workshops, hackathons and conferences to enhance their knowledge and professional networking skills.

Name: International Conference on Signal Processing, Communications and Networking (ICSCN 2008) Chennai, India

Year: 08-09 Dec 2008

Year: 1-4-2019 to 4-4-2019

Category: International Conference at AICTE Auditorium, New Delhi, India, from 1-4-2019 to 3-4-2019

Year: 20-22 February 2019

Category: International Conference at held at SVS College of Engineering, Coimbatore, 20-22 February 2019

Year: Dec 13-15 2018

Category: International Symposium

Year: 23-25 April 2018

Year: 13-12-2007 to 15-12-2007

Topic: Deep Learning for Computer Vision- A Practical Approach

Date: 02-05 November 2020

Details: Online Workshop organised by Division Of Electronics Engineering School Of Engineering Cochin University Of Science And Technology Kochi-682022 & Department Of Electronics Engineering Thdc Institute Of Hydropower Engineering And Technology Tehri 249001

Topic: Pedagogy Workshop on Teaching Excellence,

Date: 5-7-2019

Organiser: Div. of Civil Engineering & Div. of Electronics Engineering, School of Engineering, CUSAT

Details: One Day

Date: 26 April 2016

Organiser: Division of Information Technology, SOE,CUSAT

Details:

Date: 20-04-2006-21-04-2006

Organiser: Model Engineering College

Date: 29-09-2006 to 30 -09- 2006

Date: 24-11-2007

Organiser: Regional Workshop organised by Centre for Science Communication and STIC, CUSAT

Date: 2-6, December 2024

Organiser: NIT, Bhopal

Topic: Mathematical Modeling and Analysis of Engineering Problems

Date: 12-1-2006 to 13-01-2006

Details: Department of Arts and Science, Model Engineering College

Date: 24-02-2006

Details: IETE Zonal Seminar , Ernakulam

Topic: Antenna Design and Fabrication

Date: 04-08 September 2019

Details: Organised by Dept. of Electronics and Communication Engg. THDC-IHET and Division of Electronics Engineering, SOE,CUSAT, at TEHRI,Uttarakhand

Date: 27 July 2020 to 1 August 2020

Details: Online STTP organised by Division Of Electronics Engineering School Of Engineering Cochin University Of Science And Technology Kochi-682022 & Department Of Electronics Engineering Thdc Institute Of Hydropower Engineering And Technology Tehri 249001

Topic: Professional Development Training Program X

Date: 22-2-2021 to 24-02-2021

Details: Online Professional Development Training Program X Under TEQIP-III, IIM Kashipur, 22-Feb-2021 to 24-02-2022

Date: 18-22 Jan 2021

Details: AICTE sponsored 5 day Online FDP 18-22 Jan 2021

Date: 14-18 September 2020

Details: 5 days online workshop organised by Department of Computer Science & Engineering, NIT Arunachal Pradesh from 14th September-18th September 2020, sponsored by TEQIP III.

Date: 1-10 August 2022

Details: Online FDP Sponsored by ministry of Informationa Technology, Organised by NIT Warangal, 1-10 August 2022

Date: 17-21 January 2022

Details: Online Faculty Development Programme organized by Department of Electronics and Communication Engineering, Mepco Schlenk College, Sivakasi, during 17 - 21, January 2022

Date: 03-10 January 2020

Details: organised by the Division of Electrical Engineering, SOE, CUSAT and Dept. of Electrical Engg, THDC-IHET, Tehri, under TEQIP -III

Date: 27-01-2020 to 31-01-2020

Details: ATAL FDP at Cochin University of Science and Technology

Date: 24-29 February 2020

Details: Organised by the Division of Mechanical Engineering, SOE, CUSAT and Dept. of Mechanical Engineering, TDHC-IHET, under TEQIP-III

Date: 06-22 April 2020

Details: 15. 2 weeks TEQIP online certification "Digital Transformation in Teaching Learning Process," NPIU - Swayam - IITB

Date: 4-9 May 2020

Details: Faculty Development Programme organised by Tagore Institute of Engineering and Technology, Attur in association with Spoken Tutorial IIT Bombay (Pandit Madan Mohan Malavya National Mission On Teachers and Training, MHRD Govt of India) 4th to 9th May 2020

Date: 1 March 2019

Details: Faculty Development programme

Date: 16-08-2001 to 29-08-2001

Details: Model Engineering College

Date: 27-10-2003 to 08-11-2003

Details: Department of Computer Science and Engineering, M A College of Engineering, Kothamangalam

Date: 10-11-2003 to 22-11-2003

Details: Department of Electronics and Communication Engineering, M A College of Engineering, Kothamangalam

Date: 25-10-2004 to 05-11-2004

Details: Department of Electrical and Electronics Engineering, M A College of Engineering, Kothamangalam

Date: 26-06-2007 to 09-07-2007

Details: AICTE ISTE -STTP organised by M A College of Engineering, Kothamangalam

Email:jibuthattakuzha@gmail.com

Qualification Ph.D Joined in CUSAT 01/07/1999

Ph.D

Joined in CUSAT 01/07/1999

01/07/1999

Area of Interests

Wireless Communication

Title: High throughput MAC protocol using sequential collision resolution and outband signalling

Category: Procedia Computer Science

Year of Publication: 2015

Co Authors: P Preetha , Shahanas Shajahan, Sethu Lakshmi P,

Issue:

Category: INTERNATIONAL JOURNAL OF COMMUNICATION SYSTEMS

Year of Publication: 2012

Co Authors: Raja Datta , P. K Biswas

Category: Optical Fiber Technology

Issue: P. Benjamin Varghese , P. Vinod, K.N. Madhusoodanan, P. Radhakrishnan

Category: Int. J. Ultra Wideband Communications and Systems

Year of Publication: 2011

Category: Wireless Networks

Year of Publication: 2010

Category: International Journal of Communication Networks and Distributed Systems

Year of Publication: inpress

Course: M.Tech

Subject: Digital Communication

Subject: OFDM & MIMO Communication

Subject: Cooperative Communication

Subject: Mordern Communication Systems

Area of Interests

Metamaterials, Microwave, Electronic Circuits

Title: Liquid permittivity sensing using planar open stub resonator,

Category: journal

Year of Publication: 20203

Co Authors: Remsha Moolat, Manoj Mani, Shameena V Abdulrahiman, Anju Pradeep, Vasudevan Kesavath, Mohanan Pezholil,

Issue: Journal of Electronic Materials, Vol: 49, pp.2110-2117, Springer US

Category: conference

Year of Publication: 2025

Co Authors: Rosemary P J, Leo Lawerance, Joyal Biju, Nidhin Biju, Anju Pradeep, Anett Antony,

Issue: International conference -ICSCC 2025 at MITS Kochi, 03-05 July 2025.

Co Authors: M V Jisha, Anju Pradeep,

Issue: AEUE -International Journal of Electronics and Communications -Elsevier publications

Co Authors: Vrinda S Punnakkal, Anilkumar Ramakrishnan, Anju Pradeep, Aslam Hossain, Manu Punnen John, El Anila,

Issue: 2025/6/1, Synthetic Metals, vol:312, Pp: 117873, Publisher-Elsevier

Co Authors: BK Arun Shaji, Anju Pradeep,

Issue: January 2025, IETE Journal of Research, pp. 1-9, Taylor & Francis

Year of Publication: 2024

Co Authors: Sumi Baby, Anju Pradeep, US Shikha,

Issue: Micro and Nanostructures, vol.186, pp.207729, Elsevier

Co Authors: Shikha US, Jobymol Jacob, Anju Pradeep, Rekha K James,

Issue: March 2024, International Journal of Electronics, pp.1-28, Taylor & Francis

Co Authors: Hunize Muhammed, MA Joseph, KP Murali, Shaji Arun, Anju Pradeep,

Issue: Physica Status Solidi. A, Applications and Materials Science (Online), Vol. 221, Issue. 2, pp.1-10

Co Authors: Sheeja Vincent, S Mridula, Anju Pradeep,

Issue: September 2024, International Journal of Microwave & Optical Technology, vol.19, issue 5

Co Authors: Dhanya R., Anju Pradeep, Rakesh V, Abhilash S, K. Mohankumar, Sivan C., Rejoy Rebello, Prabhath H. Kurup,

Issue: 18. Aspect sensitivity measurement of backscattering radar echoes from 205 MHz Stratosphere-Troposphere radar at a tropical coastal station, Dhanya R., Anju Pradeep, Rakesh V, Abhilash S, K. Mohankumar, Sivan C., Rejoy Rebello, Prabhath H. Kurup, January 2024, Journal of Atmospheric and Solar-Terrestrial Physics, vol. 265, pp. 106367, Pergamon

Co Authors: Arun Shaji, Anju Pradeep,

Issue: Progress In Electromagnetics Research Letters, Vol. 116, 55-62, 2024

Year of Publication: 2023

Co Authors: Reshma Lakshmanan, Shanta Mridula, Anju Pradeep, Kinatingal Neema,

Issue: Progress In Electromagnetics Research C, Vol. 130, 43-55, 2023, doi:10.2528/PIERC22110906

Issue: 2023/7/1, International Journal of Microwave & Optical Technology, vol.18, issue. 4

Co Authors: US Shikha, Bhavani Krishna, Hridya Harikumar, Jobymol Jacob, Anju Pradeep, Rekha K James,

Issue: Journal of Electronic Materials, Vol.52, Issue. 4, pp.2695-2707, Springer US

Year of Publication: 2022

Co Authors: Reshma Lakshmanan, Shanta Mridula, Anju Pradeep, Pezholil Mohanan, Remsha Moolat,

Issue: 2022/7/1, International Journal of Microwave & Optical Technology, Vol. 17, Issue 4

Co Authors: Basil J. Paul, Shanta Mridula, Anju Pradeep, and Pezholil Mohanan,

Issue: Progress In Electromagnetics Research Letters, Vol. 105, 95-102, 2022

Co Authors: Shiney Thankachan, Binu Paul, Anju Pradeep, Pezholil Mohanan, and Remsha Moolat,

Issue: ACES JOURNAL, Vol. 37, No. 7, July 2022

Co Authors: R. Dhanya, Anju Pradeep, C. S. Abhiram Nirmal, S. Abhilash , K. Mohankumar, and P. Mohanan,

Issue: IEEE GEOSCIENCE AND REMOTE SENSING LETTERS, VOL. 19, 2022

Co Authors: Arun Shaji and Anju Pradeep

Issue: Progress In Electromagnetics Research M, Vol. 111, 209-219, 2022

Co Authors: Thushara Haridas Prasanna, Mridula Shantha, Anju Pradeep, Pezholil Mohanan,

Issue: IAES International Journal of Artificial Intelligence, 2022, vol.11, issue. 4, pp. 1507,

Topic: 2 day national workshop CARVE 2013

Date: March1-2, 2013

Details:

Date: May 26-31, 2013

Details: organized by Division of Electronics, SOE, CUSAT under TEQIP Phase II

Date: March 30- 2015

Date: 2017

Details: organized by ECSA, Division of Electronics, SOE, CUSAT under IEEE CUSAT

Details: organized by ECSA, Division of Electronics, SOE, CUSAT

Date: August 12, 2022

Details: Expert talk and Hands on training session on VEGA processors and Eco-systems in collaboration with C-DAC India and IEEE India

Date: July 23, 2022

Details: Co-ordinated online talk on “Kindle your Research Interest” which is intended to enlighten the participants about various research areas, its future scope, challenges faced during the research period and various opportunities in the area etc. presented by scholars in department

Date: May 31 - June 1 2022

Details: Co-ordinated Expert talk on “Python Programming - Learn from Scratch” Sonia Abraham, Assistant Professor, Mar Athanasius College of Engineering, Kothamangalam

Date: April 28, 2022

Details: Co-ordinated Expert talk on “Introduction to MEMS Ecosystem at IISc” by Dr Gayathri Pillai, Centre for Nano Science and Engineering (CeNSE) at the Indian Institute of Science (IISc)

Date: 26-27 August 2021

Details: Co-ordinated 2nd workshop in MAD (Multicore Architecture Design) Series

Date: August 27 - September 2, 2022

Details: Co-ordinated CASE -2022 (Computer Architecture Simulation Exploration) 3rd workshop in MAD (Multicore Architecture Design) Series

Date: May 3, 2022

Details: Co-ordinated ISEA workshop on Secure Systems Engineering organized by IIT Guwahati under ISEA Project- II

Date: 17/11/2023-18/11/2023

Details: The DIR-V VEGA nationwide roadshow, jointly organized by IEEE India Council and C-DAC, MeitY, was held concurrently at various centers across India. This comprehensive training program, encompassing hands-on sessions, offered a deep dive into the VEGA series of processors and their ecosystem.

Topic: Fuzzy Mathematics & its applications

Date: 28.8.2000 to 31.8.2000.

Organiser: Centre for Interdisciplinary Studies, CUSAT

Date: 15.3.2001 to 16.3.2001.

Organiser: DOE, CUSAT

Date: January 14 - 15, 2003.

Organiser: International School of Photonics, CUSAT

Date: 19-02-2004 to 20-02-2004

Organiser: Employment Information and Guidance Bureau, CUSAT

Date: 9-5-2005 to 14-5-2005

Organiser: VLSI society of India and IEEE – EDS
 Date: 25-05-2005 to 26-05-2005
 Organiser: TEQIP, MEC, Thrikkakara
 Date: 24-8-2005
 Date: 25 March 2006
 Organiser: IEEE, CUSAT
 Date: 27-28 July 2006
 Date: 15-03-2013 to 16-03-2013.
 Organiser: CoreEL Technologies
 Date: May 27-31 , 2013
 Organiser: TEQIP, DOE, SOE, CUSAT
 Date: 21-1-2015
 Organiser: TEQIP, SOE, CUSAT
 Date: 9 March 2015
 Organiser: UGC Inflibnet and University Library, CUSAT
 Date: 16-17 April 2015
 Organiser: IEEE - APS Chapter, Kerala Section
 Date: 27.3.2017 to 29.3.2017
 Organiser: UGC, Women's study centre, CUSAT
 Topic: Surface Mount Technology & PCB Rework Solution
 Date: 17/05/2000
 Details: IETE, Cochin
 Date: 19/08/2000
 Details: OSADMS, CUSAT
 Date: 12/01/2006,13/01/2006

Year: Sept 2014

Year: 29.8.2013-31.8.2013

Year: March 2013

Year: Jan 2013

Category: National conference

Year: August 2012

Year: December 2011

Category: IEEE International Symposium

Year: 6-8 September, 2016

Category: Sixth International Conference on Advances in Computing and Communications

Year: 7th August, 2020

Category: International Symposium organized by IIT Patna and Aalborg University, Denmark

Topic: PYTHON Programming

Date: 26.04.2016

Organiser: Division of Information Technology, School of Engineering, CUSAT

Details:

Date: 9.3.2016

Organiser: IEEE Women in Engineering Cochin University Affinity Chapter

Details: International women's Day 2016 at school of Engineering, CUSAT.

Date: 10.03.2016

Organiser: Centre for Enabling Technology for the Aged, CUSAT

Details: National workshop , held at Department of Physics, CUSAT.

Date: 16.04.2015-17.04.2015

Organiser: IEEE Antennas and Propagation Society, Kerala Chapter

Details: IEEE AP-S Workshop

Date: 30.03.2015

Organiser: Division of Electronics, School of Engineering, CUSAT

Details: Under TEQIP Phase-II

Date: 6.3.2015

Details: Workshop held at Department of Physics, CUSAT.

Date: 21.01.2015

Details: Indo-Czech Workshop

Date: 26.08.2013-28.08.2013

Organiser: IIM Kozhikode, Kochi campus

Details: Management Development Programme

Date: 27.05.2013-31.05.2013

Organiser: Division of Electronics Engineering, School of Engineering, CUSAT

Date: 1.3.2013 – 2.3.2013

Date: 22.12.2011-23.12.2011

Organiser: IWECC, Kochi

Details: International Workshop

Date: 24th October 2018

Organiser:

Details: ARM Architecture

Date: 5-7-2019

Organiser: Div. of Civil Engineering & Div. of Electronics Engineering, School of Engineering, CUSAT

Details: Teaching Excellence

Date: 29-08-2019 to 31-08-2019

Organiser: Division of Safety and Fire Engineering, School of Engineering, CUSAT

Date: 17th October, 2020

Organiser: IIT Patna.

Date: 12.02.2021 to 15.02.2021

Organiser: Jointly conducted by AICTE and KLE Technological University, Hubli, Karnataka

Topic: Current Advances in RF and VLSI Engineering

Details: National Seminar , organized by Division of Electronics Engineering, School of Engineering, CUSAT

Date: 4.3.2011 – 5.3.2011

Date: 25th February 2021

Details: National Webinar on NEP 2020, organized by School of Engineering, CUSAT under TEQIP III

Topic: System Level Modelling, Design and Analysis: A Practical Approach

Date: 6.6.2011 – 17.6.2011

Details: AICTE Sponsored SDP

Date: Dec 7-19, 2020

Details: AICTE Sponsored FDP

Topic: Big Data Analysis using Apache Spark and Map Reduce”-Developing lightening fast applications

Date: 16.11.2015-20.11.2015

Details: Organized by Division of Computer Engineering, School of Engineering, CUSAT, under TEQIP Phase-II

Date: 11.01.2016-15.01.2016

Details: Organized by the Division of Applied Sciences and Humanities, School of Engineering, Cochin University of Science and Technology, under TEQIP Phase -II

Date: 12.04.2016-16.04.2016

Details: Organized by National Institute of Technology, Patna

Date: 02.04.2016-10.04.2016

Details: Organized by Indian Institute of Technology, Patna

Date: 27.10.2014-31.10.2014

Details: organised by Division of Electronics and Division of Electrical and Electronics Engineering, CUSAT, under TEQIP-Phase II scheme

Date: 17.06.2013-21.06.2013

Details: Organized by Division of Electronics Engineering, School of Engineering, CUSAT, under TEQIP (Phase II)

Date: 22.04.2013-26.04.2013

Details: organized by Division of Electronics Engineering, School of Engineering, CUSAT, under TEQIP (Phase II)

Date: 18.02.2013-22.02.2013

Details: Organized by Division of Computer Engineering, School of Engineering, CUSAT, under TEQIP (Phase II)

Date: 3.12.2012-7.12.2012

Details: Organized under the TEQIP Phase II

Date: 5.11.2012-9.11.2012

Details: Organized by Division of Electrical Engg, SOE under TEQIP (Phase II)

Date: 18.10.2010-30.10.2010

Details: Organized by Division of Electronics Engineering, SOE, CUSAT,

Date: 26.09.2016 - 30.09.2016

Details: Organised by Division Of Electronics Engineering, SOE, CUSAT

Date: 27-11-2017 to 01-12-2017

Details: EQIP (phase III) and IEEE APS Kerala Chapter organized by Div of Electronics Engineering, School of Engineering, CUSAT

Date: 07.05.2018-11.05.2018

Details: Department of Electronics, CUSAT

Date: 03.01.2019 to 04.01.2019

Details: Jointly organised by the Department of Computer Science, CUSAT and Tata Consultancy Services (TCS) at the training Lab, CIRM, CUSAT

Date: 04-09-2019 to 06-09-2019

Details: Management Development Programme, IIM Kozhikode, Kochi

Date: 03.01.2010 to 10.01.2010

Details: Scope Challenges and Developments, Division of Electrical Engineering, SOE, CUSAT and Dept. of Electrical Engg, THDC-IHET, Tehri, under TEQIP -III

Date: 27-28 September 2019

Details: IEEE SPS forum on Signal processing and IEEE Kochi subsection

Date: 16-12-2019 to 22-12-2019

Details: TEQIP Phase III, Div of Computer Science & Engineering, School of Engineering, CUSAT.

Date: 03-02-2020 to 08-02-2020

Details: TEQIP Phase III, Div of Computer Science & Engineering, School of Engineering, CUSAT

Date: 23 - 27 NOVEMBER 2020

Details: Organised by Department of Mechanical Engineering NATIONAL INSTITUTE OF TECHNOLOGY PATNA

Topic: Sigma delta ADC

Details: Design and Analysis of MASH Sigma delta Modulators

Details: Reconfigurable Processor Architectures

Details: Image Analysis for Video Surveillance

Details: Reliable Reconfigurable Memristors for RF devices

Details: Domain adaptation in Transfer learning

Topic: IETE

Name of Body: Institution of Electronics and Telecommunication Engineers

Students Association of Information Technology(SAIT)

About

One of the oldest of such organization initiated and ran by the student's community with interminable support from the teachers and staffs of the Division of Information Technology. Activities of the association includes workshops, seminars, various course-related classes, projects, department magazines etc. For the preceding years the association was able to host many introductory classes, hands on workshops about latest trends and possibilities in the field of Information technology, enabling the students to get a more career specific outlook.

Every year, the association bring out their magazine incorporating contributions from students. Literature, poems and drawings find wide acceptability for close to 200 copies would be printed for hard copy and numerous copies through mail system. Alumni meet, is something the associations looks out every year providing a bridge for the prevailing students to get a chance to interact with their seniors, it will be a bliss of emotional sharing for thoughts and experiences in the outside world, and this event is marked with a great attendance.

Various projects, technology related and if not are also undertaken by the association with the active cooperation from the students and teachers. It also runs an active information board at the department gateway helping students with course related and current advancements in this field. It also maintains a forum for students to give feedbacks and suggestions, most of which if can be implemented would be undertaken.

About

Mechanical Engineering students Association of CUSAT (MESAC) is a registered association since July 2005. Since then all its members have been working for the welfare of the mechanical engineering students of CUSAT. It was formally inaugurated by Dr. N.D Inasu, Pro- Vice Chancellor of CUSAT on 8th August 2005.

Objectives

- To unite Mechanical engg students together for the development of their physical, social , intellectual, mental and spiritual manhood and to inspire with them students's community ideals.

- To f

Association Of Safety and Fire Engineers(ASFE)

About

The ASFE (Alumni Association of Safety and Fire Engineering) is a student-led association at Cochin University of Science and Technology (CUSAT)'s Division of Safety and Fire Engineering. It serves as a platform for students and alumni to collaborate, share knowledge, and work towards a safer world. ASFE also provides career guidance and facilitates alumni activities.

Date: 10-11 December 2019

Organiser: IIT, Madras

Details: Speaker, International Symposium on Natural Gas Value Chain

Date: 19 April 2016

Organiser: Indian Rare Earths Ltd.

Details: Keynote Address, Fire Service Week Awareness Meeting

Date: 8-10 December 2017

Organiser: Manipal Institute of Technology

Details: Principles, Practice and Regulations of Hazardous Materials Management

Date: 28-30 April 2016

Organiser: Petroleum Federation of India-Petronet LNG

Details: A to Z of Natural Gas and LNG

Date: 6-7 August 2020

Organiser: Technological Risk Research and Analysis Group (TRAG)

Details: Fire Modelling

Date: 10-22 December 2007

Organiser: Model Engineering College

Details: Emerging Network Technologies and Linux Administration

Date: 4-7 February 2006

Organiser: Government of Kerala

Details: Participation

Date: 23-25 April 2007

Organiser: PESO, Govt. of India

Details: PETROSAFE 2007

Date: 23-24 February 2001

Organiser: NSC, MoE&F, Dept. of Factories & Boilers, District level crisis group

Details: Management of Chemical Accidents

Date: 17 July 2001

Organiser: Sophisticated Test and Instrumentation Centre

Details: Patent Awareness

Date: 23-24 July 2001

Organiser: NSC, MoE&F, Kerala State PCB

Topic: Occupational Health

Date: 5 March 2016

Details: One day seminar on Health, Safety & Environment (HSE) in Construction Industry

Date: 6-Feb-23

Details: Dr. V. R. Renjith Participation in surakshitham 2.0, International vision zero conclave on occupational safety and health

Date: 10-December-2019

Details: "Chemical Disaster Prevention Day" organized by The National Safety Council (Kerala Chapter)

Topic: Recent Trends in Industrial Safety Engineering

Date: 7-9 September 2020

Details: Division of Safety and Fire Engineering, THDC Institute

Topic: Recent Advances in Environment, Safety and Energy Management

Date: 5-9 February 2007

Details: NIT, Tiruchirappalli

Date: 24 February-8 March 2003

Details: NITK, Surathkal

Date: 16-20 December 2002

Details: IIT, Madras

Date: 11-23 November 2002

Details: EEE Dept. Mar Athanasius College of Engineering

Date: 19-30 June 2000

Details: Vellore Engineering College

Date: 19-December-2020

Details: Attended Online Training Course on Fire Modelling organized by SEPE India Chapter and IIT Roorkee

Date: 25-30 July 2016

Details: Speaker, FDP on Health, Safety and Environment Management Systems, Department of Chemical Engineering, TKM College of Engineering, Kollam

Date: 28-29 June 2018

Details: Faculty Development Programme on Safety Orientation and Accident Prevention, Amal Jyothi College of Engineering

Date: 4-6 September 2019

Details: Management Development Programme, Indian Institute of Management, Kozhikode

Date: 10-14 February 2014

Details: Safety and Fire Engineering, TEQIP phase 2

Date: 16-27 April 2007

Details: Two weeks Staff Development Programme, CUSAT

Date: 4-Jun-2019

Details: Participant in Management Development Programme at IIM Kozhikode

Topic: Risk analysis of a chemical industry

Details: Source :UGC Value(Rs.) :30,000/- Duration :Two years Co-Investigator :N.A

Topic:

Description: Consultant for various organizations in the field of Safety and SDP Quiz Master for Safety quiz in various organization. Resources person for statutory training program organized by FACT.

Course: B.Tech.,

Subject: Advanced Safety Engineering and Management, Hazard Identification and Risk analysis, Safety in Petroleum Industry, Chemical Process Safety, Fire Engineering, Safety Engineering, Occupational Health

Subject: Hazard and Risk analysis, Occupational Health and Hygiene, HSE management in Hydrocarbon Industry

B-Tech Programmes @ SOE.

School of Engineering,CUSAT is offering B-Tech programmes in 7 discipline and all courses are AICTE approved and NBA accredited.

Eligibility / Minimum required qualification

Pass in Plus Two Examination of the State of Kerala or any other examination accepted as equivalent thereto with Mathematics, Physics and Chemistry as optional subjects securing a separate minimum of 50% marks in Mathematics and 50% marks in Mathematics, Physics and Chemistry put together. Candidates belonging to Kerala Scheduled Caste (KSC) and Kerala Scheduled Tribe (KST) communities are eligible for applying, if they have minimum pass marks in the qualifying examination. SEBC candidates of Kerala State belonging to non-creamy layer category are eligible for 5% relaxation in the minimum required marks for the qualifying examination.

B-Tech Lateral Entry Programmes @ SOE.

School of Engineering, CUSAT is offering B-Tech Lateral Entry programmes in 7 discipline and all courses are AICTE approved and NBA accredited.

Eligibility / Minimum required qualification

Any three year Diploma in Engineering / Technology awarded by a Board of Technical Education recognised by the Department of Technical Education, Government of Kerala, with not less than 60% marks. The maximum age prescribed is 25 years as on 1st July of the current academic year. Candidates who have completed 3-year diploma in Plastic Technology and Diploma in Plastic Mould Technology offered by CIPET with not less than 60% marks is eligible for B.Tech Mechanical Engineering Lateral Entry Candidates belonging to Kerala Scheduled Caste (KSC) and Kerala Scheduled Tribe (KST) communities are eligible for applying, if they have minimum pass marks in the qualifying examination. SEBC candidates of Kerala State belonging to non-creamy layer category are eligible for 5% relaxation in the minimum required marks for the qualifying examination.

M-Tech Programmes @ SOE.

School of Engineering,CUSAT is offering 6 Full-Time and 3 Part-Time M-Tech programmes and all courses are AICTE approved .

Eligibility / Minimum required qualification

The eligibly for M-Tech programmes varies for different specialization and are listed below.For more details read academic prospectus. Admission to M-Tech Full-Time programs generally needs a valid GATE score. After GATE-qualified candidates are admitted, the Departmental Admission Test (DAT), conducted by the concerned departments, is used to fill the vacant seats.

List of Programmes

Programme Name	Intake	Duration(Years)	Full Time/ Part Time	Division/Departme nt
M.Tech programme in Structural Engineering	18 *	2	Part Time	Department of Civil Engineering
M.Tech in Information Technology (Business Analytics and Intelligence)	18 *	2	Full Time	Department of Information Technology
M.Tech in Computer Science and Engineering (Cyber Security)	18 *	2	Full Time	Department of Computer Science & Engineering
M.Tech. in Mechanical Engineering (Thermal Engineering)	18 *	2	Full Time	Department of Mechanical Engineering
Dual Masters in Science (MS) in New Generation of Electronic Component Base	15 *	2	Full Time	Department of Electronics & Communication Engineering
M.Tech in Industrial Safety	18 *	2	Full Time	Department of Safety and Fire Engineering
M.Tech in programme in Geotechnical Engineering	18 *	2	Full Time	Department of Civil Engineering

M.Tech. in Civil Engineering (Construction Engineering and Management) – Part Time	24 *	3	Part Time	Department of Civil Engineering
M.Tech. in Electrical and Electronics Engineering (Power Electronics) – Part Time	24 *	3	Part Time	Department of Electrical & Electronics Engineering

PhD Programmes @ SOE.

School of Engineering, CUSAT is offering PhD programmes in various research areas of Engineering.

Candidates are advised to contact the Department / visit web sites of Departments for having an understanding of their fields of research. They may contact guides of the Department of their concerned field of study and check the availability of research guides. After getting the consent of a guide the candidates have to obtain the hard copy of the application form (within the prescribed time as per CAT Notification) from the office by making the payment of required fee through See Notification for CAT for fee details. The duly filled in applications should be submitted within the time prescribed in the CAT Notification. Once the applications are submitted, the concerned Department will intimate the candidate the schedule for DAT, Interview etc. in due course.

Eligibility / Minimum required qualification

Candidates seeking registration to the Ph.D programme shall hold a Master's Degree from a recognized University with 55% marks in the qualifying examination, or a CGPA of 6.0 in the 10 point scale or an equivalent grade in similar scales. A candidate belonging to SC/ST community is eligible for concession upto 10% marks for admission provided that he/she has a pass in the qualifying examination. Candidates seeking registration shall have passed the Departmental Admission Test and ranked as per the norms laid down in the regulation. Candidates who possess national/state research fellowship with valid scores, with committed financial assistance at the time of seeking admission, in any of the national/state level eligibility tests conducted by the agencies or by industries so recognized by the University for the purpose, are exempted from provision (ii) above. Teachers of Universities/Aided Colleges in Kerala/Teachers who are working in Quasi Government/Government Institutions recognized by CUSAT and scientists in National Level Research Laboratories, who have put in five years of continuous service, and foreign nationals who have been sponsored under a scholarship scheme by the Government of India for undergoing Ph.D. programme in India, are exempted from provision (ii) above.

Field Visit to Sophisticated Test and Instrumentation Centre (STIC)

A field visit for students of School of Engineering was organised by IIC and MESAC on 21st November 2023. The main objective of conducting of a field visit is to collect detailed information on the advanced testing facilities available at the STIC. STIC provide the actual users from academic institutions, R&D establishments, and industries with advanced instrument facilities for analysis, testing measurement and calibration.

About

IIC SOE, CUSAT was established in the academic year 2021 by the Head of the Institution, Prof. (Dr) George Mathew and the President of the IIC SOE chapter Prof. (Dr) K.K Saju. In the academic year 2020-2021, we participated in IIC 3.0 and secured two stars. During the academic year 2021-2022, we actively participated in IIC 4.0 and conducted around 40 programs including IIC-driven, MIC-driven, Self-driven and activities in the theme- Startup Innovation Entrepreneurship & IPR, and secured Three stars. We were one among the selected colleges to conduct the Impact lecture series and successfully organised Four different session under the scheme. We actively participated in IIC 5.0, IIC 6.0 and IIC 7.0. IIC 8.0 is currently running in this academic year 2025-2026. Quarter One activities are completed View details.

07/01/2026

School of Engineering,CUSAT

School of Engineering (SoE) functions through its Civil, Mechanical, Electrical, Electronics, Computer Science, Safety & Fire, Information Technology and Applied Sciences and Humanities divisions.

All seven B.Tech programmes of School of Engineering have been accredited by National Board of Accreditation (NBA) under Tier I category, till 30 June 2025 and three M.Tech programmes - Geo-technical Engineering, Industrial Safety . and Mechanical Engineering(Thermal Engineering), are accredited by NBA till 2026. The University has been reaccredited with A+ grade by NAAC.

School of Engineering has been well accepted as a research center and a major consultancy center. A number of research projects have been sanctioned to the School by agencies like DST, ISRO, AICTE, UGC, Coir Board etc. Having more than 3000 students, School of Engineering is the largest academic constituent of the University.

The School offers part-time B.Tech and M.Tech degree courses in various disciplines in

Engineering. Doctoral Programme is offered under all divisions.

VISION

To become, an engineering educational institution of international standing by striving continuously in pursuit of excellence in education, research, entrepreneurship and technology related services to the society .

MISSION

To provide high quality education in major engineering disciplines from undergraduate through doctoral levels through a creative balance of academic, professional, and extracurricular programmes To foster and maintain mutually beneficial partnerships with alumni, industry, state and central governments through public services assistance and collaborative research To be a major contributor to global technology base through scholarship and research

Principal's Message

The School of Engineering (SOE) at the Cochin University of Science and Technology (CUSAT) began its journey in 1978 with a modest start, offering a few postgraduate and Ph.D. programs in Engineering. Today, it has grown into the largest academic unit of CUSAT, with over 3,000 students, firmly establishing itself as a premier centre for engineering education and research. CUSAT, a State Government University, was accredited with an A+ grade by NAAC in October 2022.

Dr.Abdulla P

Our Features

Largest Academic Unit of CUSAT

School of Engineering is the largest constituent Department of Cochin University of Science and Technology.

Accreditation

All UG and 3 PG programmes Accredited by National Board of Accreditation under Tier CS and IT divisions under SOE accredited by Institute of Analytics UK.

Highly Qualified Faculty

Faculty with more than 25 years of experience for various research activities, Collaborations and patents

Good Infrastructure

School of Engineering has high end equipped laboratories, Smart class rooms and a good environment for their curricular and Cocurricular activities.

Good Placement Record

School of Engineering has good placement records. Over 70 recruiters visit every year with high salary packages for students.

Excellent Result

Flexible curriculum with option for minor degree & Honors upholding core human values leads to excellent result.

Academic Programmes

B-Tech Programmes.

School of Engineering,CUSAT is offering B-Tech programmes in 7 discipline and all courses are AICTE approved and NBA accredited.

Lateral Entry Programmes.

School of Engineering is offering B-Tech Lateral Entry programmes in 7 discipline and all courses are AICTE approved and NBA accredited.

M-Tech Programmes.

School of Engineering is offering 6 Full-Time and 3 Part-Time M-Tech programmes and all courses are AICTE approved .

PhD Programmes.

All Departments of School of Engineering is offering PhD programmes in various research areas.

Basic Life Support Session

As part of Safety Week 2025 organised by the Association of Safety and Fire Engineers (ASFE), a session on Basic Life Support (BLS) was conducted on March 4, 2025, at the Seminar Hall. The session was led by Dr Muhammed Alif, MBBS, MD Consultant, Anaesthesia & Critical Care Indira Gandhi Cooperative Hospital, Kadavanthra, an expert in emergency medical response and trauma care. The objective of the session was to equip participants with essential life-saving skills required during medical emergencies such as cardiac arrest, choking, and unconsciousness. Dr Alif provided a detailed explanation of the ABC protocol (Airway, Breathing, Circulation) and demonstrated CPR (Cardiopulmonary Resuscitation) techniques using a mannequin. He also explained the use of Automated External Defibrillators (AEDs) and emphasised the importance of quick and calm response in crisis situations. The session was highly interactive, with participants actively engaging in hands-on practice and Q&A discussions. It significantly enhanced awareness and preparedness among attendees, aligning with the goals of Safety Week to promote a safer environment through education and training. The ASFE thanks Dr Muhammed Alif for his valuable contribution and all participants for their enthusiastic involvement.

Aptitude Development for Placement Exams

The workshop on aptitude development for placement exams was conducted on April 3rd. The workshop aimed to equip the CS batch students with the necessary skills and techniques to enhance their aptitude for placement exams. The workshop was coordinated by Ajnas N B and Swan, who meticulously planned and executed the event. The workshop commenced with an inaugural session, which was followed by various interactive sessions conducted by experienced faculty members. The sessions covered a wide range of topics, including mathematical tricks, shortcuts, and techniques that can be applied in placement exams to solve complex problems quickly and efficiently. The students were actively engaged in solving problems, participating in group activities, and clarifying their doubts during the sessions.

The workshop also included mock tests and practice sessions, where students were provided with ample opportunities to apply the techniques they learned in real-time scenarios. The coordinators effectively guided the students and provided individual attention to those who needed additional support. The workshop received positive feedback from the students, who expressed their gratitude towards the coordinators for organizing such an informative and beneficial session. The students appreciated the practical approach of the workshop and expressed confidence in their improved aptitude skills for upcoming placement exams.

Advanced Python Topics and Best Practices

The workshop on advanced Python topics and best practices was conducted on April 4th. The workshop aimed to enhance the knowledge and skills of CS batch students in Python programming, covering advanced topics and industry-relevant best practices. The workshop was coordinated by Sunith VS and Nithin Y, who meticulously planned and executed the event. The workshop commenced with an inaugural session, which was followed by various interactive sessions conducted by experienced faculty members and industry experts. The sessions covered a wide range of topics, including advanced Python concepts, data structures, libraries, and best coding practices. The students were actively engaged in hands-on coding exercises, group discussions, and interactive Q&A sessions.

The workshops on aptitude development for placement exams and advanced Python topics and best practices were successfully conducted under TEQIIP CUSAT. The student coordinators, Ajnas N B, Swan, Sunith VS, and Nithin Y, efficiently organized and executed the workshops, providing valuable insights and practical guidance to the CS batch students at SOE CUSAT. The workshops were well-received by the students, who expressed their gratitude towards the coordinators for organizing
